Mr. T. Clarence Marshall
Yorklyn
Delaware

Dear Clarence:

Thank you for your note and I am glad that you can get the work done on the Packard for me. How are the tires? If you need good 35 x 5's I have them and can shoot them down by express quick-like.

Just ordered new tubes from Firestone to be sent directly to you at Yorklyn, on the chance we might need them. I would appreciate your dropping me a card by return mail if you think we need tires, as I have some good 35 x 5's.

Also would you advise me if there is a top boot for the top when in a "down" position.

I intend to come to Yorklyn October 9th the day before the Hershey Meet, and have registered the car for that meet.

Best regards

James Melton
