 or
 Superdetailer Project.*

Special Safety Riding Cars

Coming Attractions

in June..... An economical and safe car to haul the public. It has a removeable bench with individual seats that sits on a special drop center flat car. The car will be economical, and break down into parts for easy transportation. Riders will have a specific place to sit and a place to put their hands and feet. The car incorporates a smooth flat bottom to safely skid the car to a stop as it derails as well as a stable, hard to tip over design. All in all this is a safety riding car.

Coming Attractions

in August..... Arch Bar Trucks

Coming Attractions

this Fall..... Box Cars and Refer Cars.

MORE INFO.

CAR BODY ORDERING OPTIONS

KIT: All materials needed for assembly are included. Requires little cutting, mostly drilling, riveting and fitting. Can be done without a machine shop.

PARTIALLY ASSEMBLED: 60% - 75% Completed. Some cutting, drilling, riveting and fitting required.

FULLY ASSEMBLED: Body is finished - Ready for painting, trucks and couplers.

Our Kits do not require welding and can be assembled using simple hand tools and Patience. The parts come precut and pre-formed so all you have to do is fit the parts together, drill holes, and assemble by bolting and riveting.
