The Air Transport Command has taken every precaution to guard against loss or mishandling of baggage. However, due to the possibility of human error in the handling of baggage, passengers are requested to fill out the reverse side of this card and place one INSIDE each piece of baggage. This baggage slip is in addition to the regular baggage tags which are attached by Air Transport Command personnel to the outside of your baggage. Should the outer tags become detached, this completed card will aid in expeditious handling and early return of baggage to you.
