The plaque is a framed picture, containing the Girl Scout laws, which are as follows: A Girl Scout's honor is to be trusted; a Girl Scout is loyal; a Girl Scout's duty is to be useful and to help others; a Girl Scout is a friend to all, and a sister to every other Girl Scout; a Girl Scout is courteous; a Girl Scout is a friend to animals; a Girl Scout obeys orders; a Girl Scout is cheerful; a Girl Scout is thrifty; and a Girl Scout is clean in thought, word and deed.

Ululani received the award during the Girl Scout flag ceremony. The first-class scouts worked on signaling, while the second-class scouts took a flag test.

The "Sea Is Rough," a rime similar to musical chairs, was played by all members of the Girl Scout club. The winners were Lily Wilson, senior, and Emelia Kaopua, seventh.

## TO EDUCATE BOYS AND GIRLS BISHOP ESTATE PAYS \$677

Each pupil costs Kamehameha Schools for boys and girls \$740.99 per year, according to the annual report made by the Bishop Estate.

The total number of students of both schools was 344, for the past year, of which 147 were girls and 197 were boys. There were only 11 pure Hawaiians at the school, two girls and nine boys; fifty-four pupils, 23 girls and 31 boys were three-quarter Hawaiian; 169, of which 68 were girls and 101 were boys, were one-half Hawaiian; 89, of which 41 were girls and 48 were boys, were one-quarter Hawaiian; 20, or 13 girls and 7 boys were less than one-quarter Hawaiian, and one student a Britisher. ## SHOP BOYS TAKE UP CORN PLANTING

The agriculture shop boys of the Kamehameha School for Boys are now taking up a difficult problem of planting corn, a very hard crop to grow in Hawaii, because of the ground being badly infested by many insects that eat the young corn leaves which start to shoot up from the ground.

This is the first time in recent years corn has been planted at the agriculture department of the Kamehameha School for Boys.

Mr. James C. Gilbert, instructor, explained to the shop boys of the tenth and low-eleventh grades why it is very hard to grow corn successfully in this region because of the young corn leaves being eaten up by the "corn hopper" or other insects and pests of the ground.

Twenty-eight rows about 50 feet long were planted under very careful conditions. The boys had to have the right kind of seed suited to the soil and the right way of preparing the soil.

The problem of the youthful farmers now is to find a way to rid the place of the harmful pests of the corn.

## WINNERS OF SONG FEST WILL SING ON SUNDAY

Seniors and ninth graders of the school for girls will sing at the Kapiolani Park on Sunday, January 19, at 3 o'clock with the Royal Hawaiian Band. Miss Laura E. ## CLARKE AWARD WON BY KAHANU

George Kahanu, a member of the high-eleventh class, was awarded the John K. Clarke English award after the Christmas program held at the gym of the Kamehameha School for Boys on December 19.

This prize goes to the boy who is judged to have made the greatest improvement in English during the term. Kahanu is the first boy this year to win the Clarke award.

To obtain this award a student must have a good grade in his scholastic work and also must show improvement in speaking English at Kamehameha.

## WORKERS TAUGHT BY MISS TOOMEY

Miss Julia Toomey, assistant in the leather department at the school for girls, was recently asked to go to the library of the attorney general's office, situated in the Palace grounds, to show one of the F. E. R. A. workers, whom she has been teaching the leather work and binding of books for the past year, how to shellac books bound in leather.

The work with the F. E. R. A. workers is still being carried on by Miss Toomey and since November 19, 1935, approximately 9000 books have been repaired for public schools of Honolulu and many more are being done.

## ACCOUNT GIVEN BY DR. DANA COMAN ON TRIP TO EQUATORIAL ISLES

Dr. Dana Coman, sponsor and head of the equatorial isle expedition and a member of Rear Admiral Byrd's first expedition to the North Pole, gave accounts of his ideas and experiences at assembly.

"I am very much pleased with the accomplishments and the way the boys of Kamehameha School have carried out their duties and directed themselves on this expedition," said Dr. Coman. "The boys of this school that went showed fine qualities of leadership, fortitude and courage. I planned this expedition because I wanted to see those islands become of some use. These equatorial islands were discovered by American whaling captains and that is how they belong to the United States."

"We have already started to plant some kinds of vegetation; and, if eventually there is much vegetation, there will be a change in climate, causing rain to fall on the islands instead of on the sea. Fresh water is very scarce on these islands."

## STUDENT COUNCIL TO WEAR INSIGNIA

Miss Maude E. Schaeffer, principal of the Kamehameha School for Girls, has approved the arm band insignia which is to be worn by all members of the student council throughout the year. The proposed pin was not approved for the suggestions that were given were not symbolic of the school. A suggestion was given in which a prize be given to any member in the school for girls who submitted a suitable design.

Mr. Milton E. Ballengee, instructor in the leather department, suggested a book with two single covers joined by Chicago screws going through each page and the covers fastening at the back for class minutes. The pages may be removed and the book made as large as necessary thus enabling the classes to type their notes.

The taking of reference books from the shelves and not replacing them was discussed. Student council girls were asked to remind girls who were seen doing this to return their books to the shelves.

## Instructor In Art Exhibits Paintings

Mr. Russell West, instructor of art at the Kamehameha School for Boys, showed the boys at assembly many paintings that he made and told several happenings for each painting.

## ORATORICAL CONTEST IS SCHEDULED

**'After Kamehameha—What?'  
Selected To Be Topic For  
Annual Prize**

"After Kamehameha—What?" is the topic recently picked for the annual Alumni Oratorical contest to be held on March 14, 1936, at Kamehameha Schools.

Mr. Thomas Treadway, former president of the Kamehameha Alumni association, Mr. William Bell, and Mr. Ainsley Mahikoa were the members of the committee chosen to select the topic. Mr. Loring G. Hudson, Mr. William Sievers, Miss Ula Baker, and Miss Mary Wallace were the representatives of both the school for girls and the school for boys.

"Past topics have been too broad for the student and so we are choosing the above topic to center contestant's oration over a limited field," said Mr. Thomas Treadway.

Under the main heading "After Kamehameha—What?," the members of the committee have listed several subheadings to help the student in organizing essay. Some of the subheadings are Occupation, Further Education, Community Life, Adjustment, Home Life, and Leisure Time.

Members of the committee in choosing the topic took into consideration the following facts: Direct bearing on what the students are doing now and their preparation for the future. How the school might be improved to further the learning and preparation of its students for the future?

Contestants are to submit a written essay of about 600 words. Judges will correct the eight best essays and have the writers prepare them for oral delivery. Essays will be handed in to the judges on February 14, 1936.

In the past the submitting of essays has been optional. This year, however, every student shall be required to submit an essay and deliver it in class. This will be a preliminary in which the best are to be chosen.

## M. C. Hanks Will Preach

**Topic: "Real Religion In The  
World Of Great Literature"**

Mr. M. C. Hanks will deliver the sermon on Sunday morning at Kamehameha chapel. His topic is "Real Religion in the World of Great Literature."

Mr. Hanks has no hands or eyes. He lost them while he was working in a mine in his youth. But through his struggles and studying, he has achieved a very high influence among his fellowmen. Mr. Hanks came from Heber City, Utah. His grandfather and Abraham Lincoln were cousins.

Mr. Hanks studied for four years at Stanford, two years of law at Harvard, one year at Columbia, and one year at King's oratorical school in Austin, Texas. He has crossed the continent 58 times and visited Honolulu once, about three years ago. He is working for the blind people of America and has in his travels lectured in the cause of the blind.

Recently Mr. Hanks lectured to the Alliance club, a prominent association that has done much for the welfare of the blind in Honolulu, and of which Mr. Paul Baker, instructor and chaplain at the Kamehameha School for Boys, is a member.

The United States has 125,000 blind persons, one out of every 1000.
