And to a certain extent they are YOUR responsibility

You want them to grow up fine citizens . . . Very well, then, you must help them — by providing supervised play and play centers, leisure-time activities that will build character.

Here's why: Palice Chief Wm. A. Gabrielson is quoted as saying that four out of every nine arrests for felony last year were boys and girls committed for burglary, larceny and auto theft.

It costs the territory an average of \$400 a year to maintain a boy or girl in industrial school—
money out of your pocket as taxpayer. Most effective preventive is the boys' and girls' clubs,
Scout Troops, sports and hobby classes for school and employed youngsters. This year more than
5,200 boys and girls are in these club groups of the ""1"s' alone! The work is conducted under
volunteer leadership. Its cost to our community averages \$8 per member per year.

Youngsters brimming over with physical and mental energy must find outlets for it in their leisure hours. This is the problem you and United Welfare agencies face today; it is, perhaps, United Welfare agencies. BIGGEST problem.

Your paid pledge to United Welfare for 1937 will help the agencies to meet this serious challenge of Oahu's youth next year. Your help as a GOOD NEIGHBOR is vitally needed!
