DIVISION I - HORTICULTURE

"When the hounds of spring are on winter's traces"

RULES:

1. Both potted plants and cut specimens must have been in the possession of the owner for at least 3 months (90 days) before the show.
2. Each entry tag must be filled in with the common or botanical name of the plant.
3. Growing plants in unsightly containers must be wrapped in brown paper by the exhibitor.
4. Leaves of all specimens must be free of residue and must not be oiled or waxed. (See below for suggestions on preparation). No wiring or artificial coloring may be used.
5. Containers for all cut specimens will be furnished by the Committee unless otherwise noted.
6. It is now permissible to show homegrown plants on the State Conservation List in competitive exhibition. This is a new ruling.
7. All exhibitors guarantee to replace faded cut specimens on the second day of the show and to pick off faded blossoms and withered leaves in potted specimens.
8. The Committee reserves the right to reject any inferior specimens and the Judges reserve the right to withhold awards in any classes failing to meet the highest standards. Scales of points used by the Judges will be found on page ~~10~~ 9.

SUGGESTIONS ON PREPARATION

Potted plants should be gently washed a few days before bringing them in. Trim off damaged leaves and sponge remaining leaves and stems

Cut specimens should be gathered at early morning or evening the day before the show, as sugar is strongest in their veins at that time and they will last longer.
