Dedication to Louise Luppold

As a tree is fertilized by its own broken branches and fallen leaves and grows...so also can we grow and gain from the many lessons and guidance that Louise has left here as our legacy. We must use this knowledge to nurture and more fully develop our Garden Club, and grow by the lessons of her love of nature.

Let us learn by her sharing, her generosity...not only her keen mind and body, working on gardening projects to the very end...but the plants, sewn with seed from her fruitful hands, have touched nearly all of our lives in the few years that we have known her.

It gave Louise great happiness to share her orchids and seedlings with us. It was like a sunbeam reflected upon a mirror...it redoubled its brightness and was perfected as it was shared.

Louise loved life and lived it as bravely and faithfully and cheerfully as she could, always giving and sacrificing. H.W. Sylvester expressed it well..."There can be no real and abiding happiness without sacrifice. Our greatest joys do not result from our efforts toward self-gratification, but from a loving and spontaneous service to other lives. Joy comes not to him who seek it for himself...but to him who seeks it for other people."

A poem by Helen Marshall is apropos. "How long we live is not for us to say; we may have years ahead...or but a day. The length of life is not of our control, but length is not the measure of our soul...Not length, but width and depth, define the span...By which the world takes measure of a man. It matters not how long before we sleep, but only how wide is our life...how deep."
