

*In Garden  
Audubon House*

**Master Bedroom**—An air of elegance and comfortable living are exemplified by the Master Bedroom and its surrounding rooms. The Dressing Room has an English 18th century SHERATON DRESSING TABLE, and a CHIPPENDALE FOUR PANEL FOLDING SCREEN, English, early 19th century which compliment the CHIPPENDALE FOUR-POSTER BED, Duchess of Kent Collection, 1780; the CHIPPENDALE CHEST OF DRAWERS, Duchess of Kent Collection, 1790; and the CHIPPENDALE COMMODE WITH PULL OUT FRONT, 1790. The inside bathroom adjoining the bedroom contains a woman's sit-tub, a unique 18th century COVERED BIDET and other bathroom fixtures.

**Phoebes**—Special exhibitions dealing with Audubon, fine art, and the history and natural resources of the Florida Keys are shown periodically in the second floor gallery. On a regular basis the gallery houses a rare collection of astonishingly detailed porcelain birds and foliage made by artist Dorothy Doughty in collaboration with the Worcester Royal Porcelain Company Limited, Worcester, England. Birding trips, lectures and other special programs are scheduled regularly throughout the year. For details, please contact the Audubon House.
