

2000 GARDEN WALK

Look for the Garden Walk Pennants

CLAUDE AND RAQUEL PLYLER, 201 Monroe Dr., MM 89. A fabulous garden with a new lot added which is a wonderful scenic walking garden with exotic and unusual plants and trees. There is a huge orchid garden. Palms galore -- jelly palms, foxtail palms, leather palms, ponytail palm, old man palm and bottle palm. A new unusual turtle plant, kapok tree, powderpuff bush and a huge brain cactus are also included.

CHUCK AND NANCY ELLSWORTH, 112 Bee St., MM 90. What a charming house and garden! It was completely landscaped by the owners who also decorate the grounds lavishly for Christmas and other special holidays. This house and garden are outstanding.

LINDA BARRETT AND MARK GREGG, 184 N. Coconut Palm, MM 90. Linda and Mark had nothing but bare rock and dirt plus two old trees to begin with. In only a year they turned this tiny lot into a paradise using Linda's artistic talents. They salvaged throw-away shrubs, bulldozed full-size trees and hand-me-down plants to create what now appears to be a mature well-established garden. You will see good things come in small packages.

JEFF AND BRENDA BRAUN, 113 Riviera Dr., MM 90. There is a rock garden and fish pond in the front garden hidden from the street and a secret path leads to this charming grotto. A stand of black bamboo is recovering from Hurricane Irene. They, along with palms hide this garden from the street. The back garden has a lovely swimming pool and pergola surrounded by much greenery and a high privacy fence.

FRAN TWITCHELL, 711 Barcelona, MM 102. A wonderful garden with a huge bromeliad planting, orchid house, exotic trees, dwarf yellow poincianas, lime and temple orange trees. Turk'scap hibiscus, Chinese hat, caladiums, coleus, amarillis and a heliconia collection designed, planted and grown (some from seed) by the owner. A truly lovely garden.

DIANE LOVELAND, 302 2nd Terrace, MM 104. As a new gardener, Diane designed and planted this unique garden. Many plants were propagated from seed or cuttings. She created many mini-gardens in a relatively small space and learned by trial and error. The results are charming! She has a green thumb. Some samples are plumbago, zinnias, mums, various ferns and trees. This garden shows what a beginner can accomplish.

Thank you for participating in our Garden Walk
we hope you enjoyed the day!

Garden Walk 2000
January 21

Enclosed are this year's Garden Walk TICKETS. Ticket holders get a light lunch and the six garden tours for the prepaid price of \$8. Admission, the day of the Walk, will be \$10.

Please understand these tickets are your responsibility! We ask once a year that everyone participate in this activity and fundraiser, the proceeds go toward the maintenance of our lovely buildings and grounds, insurance etc. We are blessed to have a paid in full building, but in order to keep our dues low our fundraisers are essential. As our building ages we will need to fund up keep and general expenses.

Please try to sell these 4 tickets, if you need extras contact Pat Cullin, at 451-4814. They do make great Holiday gifts for friends, family and neighbors. Many people you ask will want more because the pre-paid price is a bargain for a great traditional Key's Outing. If you cannot use all of these they should be returned to Pat Cullin at 684 Dolphin Ave, Key Largo, FL 33037 before Jan. 21. Yes, Garden Club members do need tickets for admission too!

We do keep track of the ticket sales because the tickets you can't sell may be needed by someone else to sell. In the past we have had great membership support. We thank you in advance for making this, the first Garden Walk of the New Millenium, an important event.

Sincerely,
Pat Cullin and June Stoiber
