

October 30, 1964.

Mrs. Robert F. Bohne,
516 Caligula Avenue
Coral Gables 46, Florida.

Dear Mrs. Bohne:

In my letter of March 12th I told you that we hoped to get the Francis Tracy Garden Center under construction soon. I am very happy to report that the building is finished and in use. We are just beginning on the grounds. It is a very lovely building and will make a real asset to this whole area.

The Upper Keys Garden Club is planning an OPEN HOUSE on November 29th from 2-5 P.M. We should be so happy if you could attend.

Would you be coming down this way in the near future? We would like very much to have you go through the building. A key is always available at Dr. Bond's or at Mrs. Strange's home, she lives near Bonds. Maybe you could give us some sort of write up in the Miami Herald. It is so wonderful that we can honor Mrs. Tracy while she is with us.

Do you see the Keynoter? This was a write up in this week's paper. Thought you might be interested.

Thanking you for past favors and hoping we can show you our lovely Center.

Sincerely,

Corresponding Center.
