Trumpington, Cambridge,
CB2 2ND England, UK.

Dear Eva,

Many thanks for your friendly letter and the family photograph. Are you the young lady on the front right of the photo? You must be 70 for Jan 71.

There must have been "Vibes" between us recently. I have been telling my Jewish friends about you and searching out photos of you, Selma Berger, Ilse Lore and Ilse Lisa. All of you stayed with us 60 years or so ago. In fact, the day after you sent your letter to me, we had a gathering at Newham College. I enclose a copy of the ^{Souvenir} ~~Memorial~~ of that event. My brother spelled your surname wrongly, but he was only 6 at the time!! My friend, who organised the gathering has your late Father's letter to my late mother. A wonderful letter. My friend may put my article about you in our Passover edition. We will send that edition to you and your Father's letter (My friend, Marylyn, has it at the moment.) Could you send me facsimiles of the letters from you to my mother, which I sent out to you, when I discovered them, when mother died five years ago. I remember that they were amazingly interesting and would be of great interest to my friends here.

Please let us not lose touch. I was in Australia in January of this year with an astronomer friend (not Jewish) who were at Mt Peak and the Howell Observatories. Barbara keeps well. I kept her with her children and grand children (10 of them!) Yesterday 1st November Barbara and I were 10 years married. We will never attain yours and Julian's 50 years well done. Fine progress to prove it to love to you, your husband and your children,
Your old friend,
Barry Richards.
