Dear Eve (on behalf of your name)

CB2 9NQ. Note QNO not 2 NO

It must be 70 years since first we met in 1939. I met your father. I remember leaving about your leaving Germany. We became good friends and had lots of adventures. You left, by sea, for the US. to join your father. I cannot remember was that before or after Andy and I left for Canada. He rather unfortunately 'lost track' for many years. Happily you prospered and had four sons by a Doctor husband.

After the war was practically over we came back to UK. I went to boarding school, the Army, University. Articles of Clerkship to become an (attorney) solicitor, two years on a kibbutz, Teacher Training. Some 15 years Teaching. 5 years Health Service civil service, carrying mother's job by retirement well etc. of Astronomy. I have acquired a big family by marriage. Ten grandchildren are doing different things all of which helps me ^{interested} busy and it is a friend the Army of Time. Generally you visited us during Harkers life time and like your photos of your sons. I never learned as much about your husband as I would like to do every week. You must be 80 years of age for I am in my 80th year. I do not believe you have met my Barbara. She and I have been married 10 years already. We enjoy our garden. I have an Astronomical Observatory. The Dome dates from 1920. I have several Telescopes. I have Newton's Synchro, which makes observing quite enjoyable. I have Newton's Sky & Telescope Journal from the US. I spent a fortnight in Arizona, Casa Grande, with an agricultural friend from England. I met with an Astronomical friend, by airplane, some years ago. Barbara and I spent some six years cruising; Mediterranean, the Amazon, the Caribbean ending with a world cruise in 2006. We stayed for a day at San Francisco, the nearest I had ever been to where you live. I do not have much to do with the Jewish Community. I belong to the Cambridge Jewish Cultural Association. I have volunteered to speak about my own time experiences. This will doubtless include some photographs about my wartime friend (Friday 9th November at 2 pm D.V.)
