

A List of CB Radios and their Sams Photofact references

This list was complied by:

<http://www.kenselectronics.com/manual/lou-sams.htm>

NOTES:

1. (EP) = Early Production; (LP) = Late Production. These may be completely different main chassis, or only minor changes from the earlier chassis.
2. All newer COBRA & UNIDEN models with suffixes like "Classic", "XL", "XLW", "WX", "F", "NW", or "ST" have very similar or even identical main chassis to their earlier cousins that are in the SAMS. These usually mean they've included a small add-on PC board like a Weather Receiver or Frequency Counter. For example, the Cobra 29LTD is identical to the 29LTD-WX, the Uniden Grant and Grant XL are identical to the President Grant, the Cobra 148GTL is the same as the Cobra 148E-GTL, and so on.
3. The letter "B" at the end sometimes means the Base version of an otherwise identical mobile chassis (Midland 13-862 & 13-862B, Pace Sidetalk 1000M & Sidetalk 1000B, etc.)
4. * = Model not in SAMS. Either it never was, or it came out after SAMS quit and a manufacturer's service book isn't available. (These are typically from Cobra, Midland, Realistic, or Uniden, which are so new they're not ready yet, or already been published but now out of print.)
5. ‡ = Model is too new for SAMS
