ST. LAWRENCE RIVER SKIFFS
CLAYTON, N.Y. (THOUSAND ISLANDS.)

Antique Boat Museum

INTRODUCTORY.

TO many visitors to the World's Fair, we are strangers, and in presenting you this Card, we do so with the hope that if you are interested in Boats of any kind you will fill out attached Card and mail same to us, on receipt of which we will promptly mail you our Descriptive Catalogue.

We are the original builders and designers of the famous St. Lawrence River Skiffs, which have gained a world-wide reputation, and which for model, workmanship and finish, have never yet been equalled. Their success have caused many cheap and worthless imitations to be placed on the market, in consequence of which we have put on every boat of our manufacture the accompanying Trade Mark, and none are genuine without it.

We also manufacture in addition to the above, Row and Livery Boats, Canoes, Canoe Yawls and Steam Launches, and in every style we have met with the greatest of success, producing the fastest and best models of their class.

We do not confine ourselves to Boats as Catalogued, but are prepared to build any style of Boat from lines designed by customers, and especially invite correspondence for special work of any kind.
