

Skaneateles Lightning

#1045 LIST F.O.B

19' Sloop With an Outstanding Performance Record

THAT'S because exclusive Skaneateles features make the difference that counts at the finish line.

These are the fleet, fast Lightnings that were designed by Sparkman and Stephens . . . and pioneered by Skaneateles.

Sail a Skaneateles Lightning . . . then you'll know she's a wonderful boat . . . roomy and seaworthy . . . rugged but comfortable . . . quick but safe. In a breath or a breeze she'll step out in the lead leaving competition in her wake . . . in a blow, you can trust her.

If you want speed, dependability, flashing performance and perfect balance . . . the Skaneateles Lightning is your craft.

19-FT. CLASS RACER AND DAY SAILER

20-light.
25-rest.

• Reaching under working canvas or tearing along behind her tugging spinnaker, LIGHTNING is steady on her course, without yawing or rolling. That's why you'll say, in performance, she's the smaller version of a large racing yacht.

• Note the distinctive character of the Skaneateles Lightning. You'll thrill to the boat's crisp, smart, modern design . . . the graceful, sheer, splendid free-board and handsome rig. You'll like the aristocratic sail plan with its high fore triangle, permanent backstay, double jumper stays and spreaders.

Write for more complete and detailed literature or see the Skaneateles LIGHTNING on display at your dealers.

Comets

16-FT. CLASS RACER AND DAY SAILER

A true yacht, Comet goes to windward like her larger and more expensive sisters.

The roomy cockpit and comfortable floor make her a joy to sail even on those light and fluky days.

Large fleets of Comets are sailing at Yacht Clubs everywhere. One-design sailing has increased tremendously due to the fine qualities of the Skaneateles Comet.

WHEN you sail a Skaneateles Comet, you are safe in the knowledge that she is a boat proven by the fact that she is a member of one of the largest one-design classes in the world and that her sisters are being sailed on waters ranging from the smallest inland lakes to the open expanses of the Great Lakes and seven seas.

Skaneateles quality and high performance are attained by the skill of master craftsmen many years in our employ, the most modern production methods and the use of the very finest materials available.

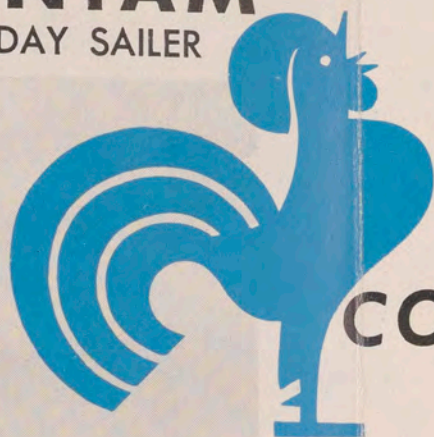

Write for more complete and detailed literature or see the Skaneateles COMET on display at your dealers.

RHODES BANTAM

14-FT. CLASS RACER AND DAY SAILER

COCK O' THE WAVES . . .

New Low Cost

THIS fast and roomy little boat of plywood leak-proof construction requires a minimum of maintenance and attention. Here is a craft that will sail her way right into your heart.

The Bantam, pioneered by Skaneateles and designed by Phil Rhodes is all that her cocky name implies. Design and construction has produced a boat having the speed and stability usually found only in boats of much larger sail area and longer water line length.

Write for more complete and detailed literature or see the Skaneateles RHODES BANTAM on display at your dealers.

11½-FT. SAILING DINGHY
of RHODES DESIGN

Skaneateles

PENGUIN

THE Penguin is an able craft . . . ready for a quick blow . . . easy on the tiller. Dependable and sturdy, as her achievements have proven. The Penguin has earned record-breaking popularity and developed a strong national class. She's roomy and versatile. Take her with you . . . carries well atop your car. She performs capably with oars or outboard motor.

Write for more complete and detailed literature or see the Skaneateles PENGUIN on display at your dealers.

Skaneateles

HYDROLITE

8-FOOT DINGHY WEIGHS UNDER 60 LBS.

Conical bow allows plenty of room for five adults.

Light weight allows for one man carry. Take her with you.

The ideal yacht tender. Her bright mahogany finish will enhance the appearance of the finest yacht.

FOR USE WITH OARS OR OUTBOARD

HUNT or fish with the Skaneateles Hydrolite. . . . take her with you anywhere. . . . carries easily on your car.

An ideal yacht tender and utility boat that will not leak, is always accessible, and easy to handle . . . with oars or outboard motor.

Her one-piece hull, of multiple wood veneers, is moulded by means of a special plastic bonding process under heat and pressure. The finish is a bright, high lustre mahogany.

Write for more complete information and construction details on any of the models shown in this folder.
