

ALBIN 33⁺³ Express Trawler

The New Breed in Offshore Cruisers.

Performance. It's what our New Albin-33⁺³ Express Trawler is all about. Step aboard and experience it first-hand with your family.

The Albin-33⁺³ Express Trawler represents a totally unique and refreshing departure from today's trawler-stylized yachts...both in terms of maximizing speed and fuel efficiency to offering a no-nonsense approach to both its interior and exterior design functionality.

Combined with advanced construction techniques, this modified-V, keeled hull design provides superior performance and maneuverability.

Redefining Interior Comforts.

Once you've boarded the Albin 33⁺³ Express Trawler, you'll find an interior layout different from that of many yachts. The Forward Cabin can be used as two V-berths or converted to a jumbo berth. The Centre Cabin features a Queen berth with a built-in upholstered backrest. The

marine head compartment sports an adjoining, separate shower stall.

Surprisingly spacious, you'll take great pleasure in its warm interior &

The Trawler for the New Millennium.

thoughtful appointments.

The helm station, sofa and complete galley are located in the comfortable main salon. A hard-top canopy covers the roomy cockpit with built-in seating and stowage compartments.

There's easy access to the full fly-bridge and sufficient seating for Captain and guests. An extended swim platform with integrated

boarding steps make watersports access safe and sure. It's what Albin is all about!

American Crafted Quality and Value.

Quality? It's all around you. From our advanced hull design to our custom interior...there's no better value in today's marketplace.

Generations of highly trained craftsmen have earned Albin Marine a worldwide reputation for building seaworthy offshore vessels that meet the challenges of any sea.
