

Albemarle[®]

FOR FISHERMEN WHO TAKE THEIR SPORT SERIOUSLY.

A true innovation that adds a high degree of speed and performance, with no interference to the trolling area. Standard on the Albemarle 27 Inboard.

HYDRO-CONFORMAL PROPELLER POCKET

Albemarle 27

THE ULTIMATE OFFSHORE FISHING BOAT

Plenty of power. Rugged construction. A smooth, dry ride. Exceptional handling. Perfectly balanced. Thoughtfully outfitted. And designed to totally enhance the sport fishing experience.

The Albemarle 27 offers a degree of speed and smoothness that's unmatched in any price range. Her construction is incredibly rugged, to take the abuse of daily runs through choppy seas.

Every feature for the serious sport fisherman has been considered, refined and included in the Albemarle 27. She offers an extraordinary amount of space for passenger comfort and on-board angling action. Her instrument package is a superb combination of quality and convenience. There's a stand-up head, complete with shower. Twin Volvo Penta engines. A 240 gallon fuel tank takes you to the "big game" action. The reliability of circuit breakers throughout the electrical system. A remarkable propeller pocket design. Ten-inch stainless steel cleats. Comfortable cuddy. Plenty of storage.

The Albemarle 27, in either Inboard or Inboard/Outboard version, is the best possible blend of engineering efficiency and design detail. Which gives you the best possible value in sport fishing performance and enjoyment.

FEATURE FOR FEATURE, YOU CAN'T BUY A BETTER SPORT FISHING BOAT.

Remarkable. That's the perfect word to describe the Albemarle line of offshore fishing boats. Each craft is designed for optimum performance under virtually all possible conditions. Maximum strength and durability. Maximum speed and economy. Maximum functional convenience. And maximum handling

control and performance. There is simply no better boat made.

Each Albemarle boat comes complete with a comprehensive equipment package. Various options may be selected to meet your specific needs and style. In any event you are sure of the best possible value for your investment.

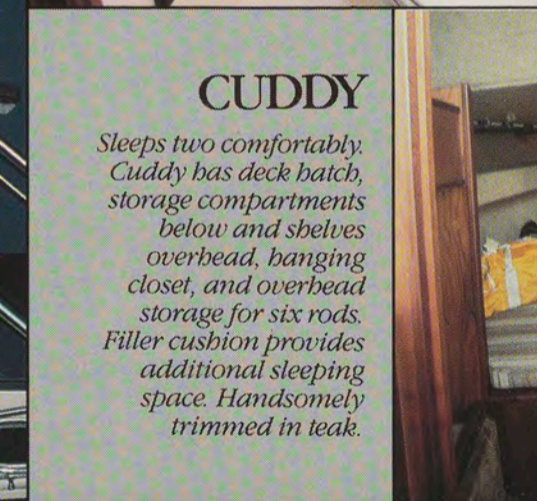

TOWER

Adds a high degree of visibility for scouting fish and maneuvering. Tower comes with complete instrumentation, including engine synchronizer, plus controls, compass, bimini top, lower station enclosure, and lower station electronics console.

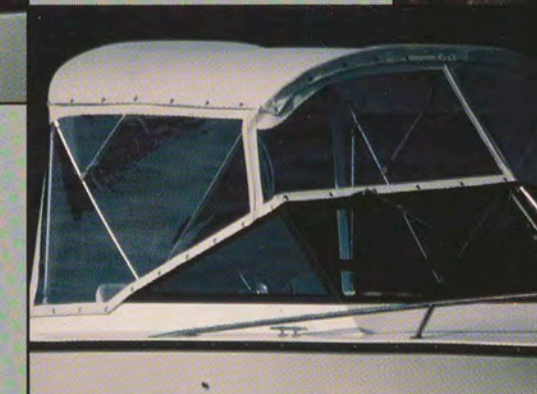

HEAD

Features stand-up head and shower, with 30-gallon holding tank. Vanity offers plenty of storage.

CUDDY

Sleeps two comfortably. Cuddy has deck hatch, storage compartments below and shelves overhead, hanging closet, and overhead storage for six rods. Filler cushion provides additional sleeping space. Handsomely trimmed in teak.

OPTIONAL TOPS

Both the Albemarle 24 and 27 are available with either a fiberglass hard top with snap-out curtains, or a custom-tailored "bimini" canvas top.

CONSOLE

The helm of the Ablemarle 27 is an efficient, well-outfitted command station. High quality instruments include dual engine gauges and engine synchronizer. Control panel layout is designed for easy reading and accessibility. Rack and pinion power assist steering affords fast, precise control.

RIGGING STATION

Crafted for efficiency and convenience. Stainless steel sink, plus cabinet space for bait, tackle, and knives.

COCKPIT

The entire cockpit of the Ablemarle 27 is designed for space efficiency and maneuverability. Features include flush mount rod holders, teak woodwork, cockpit rod storage, stainless steel hardware and through-bolt attachment of fixtures. Cockpit has self-bailing design feature.

DETAILS THAT MEAN DURABILITY.

Albemarles are designed for durability. Through-bolting of all major assemblies means uncompromised strength. Fasteners are stainless steel, with ny-lok nuts to keep them securely in place. There are no bolts or screws to re-tighten after a few rough outings.

Generous use of fiberglass also plays an important role in the construction of Albemarle fishing boats. Their entire grid stringer systems are encapsulated in fiberglass. All main bulkheads are "glassed" into place to the hull and stringer system.

In every sense, Albemarles are crafted to the toughest specifications. So they'll perform perfectly under the worst conditions.

NOT ONE SQUARE INCH OF WASTED SPACE.

The Albemarle has the clean, classic beauty of a craft that's designed to do its job as efficiently as possible. From the 24 Inboard/Outboard to the 27 with its twin Volvo Penta engines, Albemarles are built for speed, comfort and durability through all possible fishing conditions. Designed for the serious fisherman, they are built according to proven scientific principles and modern engineering techniques. The result is outstanding performance. We guarantee it.

Albemarle 24

THE POWER YOU NEED. PLUS THE COMFORT YOU WANT.

With its 8-foot beam and 24-degree deep V planing hull, the Albemarle 24 offers the speed and comfort of a much larger boat. She is an outstanding craft for salt water game fishing, providing a high degree of rugged dependability and functional convenience.

The Ablemarle 24 is as much at home on the high seas as she is on a narrow inland waterway. She delivers a smooth, fast, economical ride...without the usual distraction of excessive bounce, bumps, and spray. She is outfitted for total fishing enjoyment, with teak rod racks, tackle cabinet, rack and pinion steering, self-bailing cockpit, and full instrument panel. In every sense, the Ablemarle 24 Inboard/Outboard out-performs the competition in her class, hands down.

Albemarle 24's deep V hull design and rugged construction takes some of the toughest pounding the ocean has to give.
