
27' VICTORY

When Hot Boat Magazine named the 27' Victory its 'Boat of the Year,' the editors said, "Advantage has swept into the '90s with a bold, beautiful new design that packs more value, features and pulse-quickenning cosmetic juice into this size class than anything in recent memory." And who's to argue. The 27' Victory is a genuine work of art...beautiful to look at, a thrill to drive and a pleasure to own. This boat is built for big water...lake or ocean. Power is supplied by single or twin engine options. And when it comes to comfort, the 27' Victory delivers with a luxurious cockpit and spacious forward cabin. When you're 'Boat of the Year'... you have to be something special.
