

Remington Typewriter Serial Numbers

Serial Number Table Last Edited: 12/11/24 04:16

*NOTE: dates shown are JAN 1 unless noted, so the serial number shown is the *first* serial number produced the given year. **Exceptions are serial numbers preceded by "up to"**(where you can assume that the numbers reported in that subsection are **DECEMBER 31, END OF YEAR NUMBERS**) or rows where a month is given in the month column. If the serial number is shown as a range (xxxx-xxxx) it indicates that we know the entire range of serial numbers for the given year.*

First produced in the factory of the Remington Typewriter Co., New York, U.S.A., by Wyckoff, Seamans & Bendict Remington Rand Inc., New York 10, N.Y. - 315 Fourth Ave., U.S.A.					24

	Early Remington Prefix Letters:				18
<i>First Letter</i>	... of Two-Letter Prefix (first letter indicates Model, second letter Month: Jan=P, Feb=M, Mar=L, Apr=K, May=X, June=S, Jul=V, Aug=E, Sep=D, Oct=C, Nov=Z, Dec=A)				18
B	Remington 12-20-30, first used 1927.				18
L	Remington 10-11-12-20-30, First used Oct 1920.				18
M	Smith-Premier 30-40, first used 1921.				18
M	Monarch #3, first used 1914.				18
N	Remington Portable, first used 1920.				18
Q	Noiseless #6, first used 1925.				18
R	Remington 10-11, First used 1914.				18
S	Smith Premier #10, first used 1914.				18
X	Remington 50 & Smith Premier 50-60, first used 1925.				18
<i>First Letter</i>	... of Single-Letter Prefix				18
C	Compact Portable (folding type bars), sold by Sears-Roebuck, Butler Bros.				18
H	Noiseless #7 Desk Model, first sold 12-01-1931				18
K	Blickensderfer.				18
N	Noiseless Portable #7X, first sold 08-24-1931				18
V	Remington Portable, first used Sep 1928.				18
W	Remington 50 & Smith Premier 50-60, First used Sep 1928.				18
X	Noiseless #6, first used Sep 1928.				18
Z	Remington 12-20-30-16, first used Sep 1928.				18
Y	Accounting machines				18

Models and s/n	Y	M	D	Remarks	Ref.
Standard Manual (Blind Writers)					
Model No.1				Began Sep 1873 - Discontinued (no record)	18
1877-1886				Called "No. 1 (Old Style)" Machine prints capital letters, punctuation marks, figures, commercial signs, etc. Sold for \$47.50 Typefaces available: Small Roman, New Small Roman, Large Roman, Small Gothic, Large Gothic.	38
				In 1878 a low-priced capital letters alternative of the Sholes and Glidden "Perfected Type Writer" was called Remington No. 1 in advertisements (see Sholes & Glidden). The second use of the word "Perfected" to designate the new typewriter introduced in 1877-78 was applied to what became the # 4 in 1881-82. This was followed by the # 3 all-caps model almost immediately. That # 3 was a # 4 with a long carriage. The # 2 [exact date not clear]. followed and the # 3 was soon (exact date not clear) changed to a shift machine based on the # 2.	16, 171
				Illion letter dated Sep 5, 1931 indicates serial number records for #1 no longer available.	18
Model Standard No. 2				Shifted caps/lowercase. Wooden feed roller. Perfected model has carriage almost identical to Sholes & Glidden.	16
1880-1886				Machine prints 76 to 80 letters (including capital letters, small letters, punctuation marks, figures, commercial signs, etc.) 39 keys. Sold for \$95.00 Typefaces available: Pica Caps and Small Letters, Medium Caps and Small Letters, Great Primer Caps and Small Letters, Large and Small Gothic Capital Letters, Italic Caps and Small Letters.	38
				About the earliest practical double shift, blind writer, regular carriage.	31

Remington Master Riter (Dutch serial numbers)					
787000	1951			Model called "Rembrandt" in South-America	13
899000	1952				13
114000	1953				13
117000	1954				13

Remington Standard Typewriter (Dutch serial numbers)					
101290	1953			Identical to the U.S. Super Riter	13
Remington Super-riter (Dutch serial numbers)					
102500	1954				13
Super Riter Standard (French serial numbers)					
				There are two different series: One was assembled from parts, which were imported from the U.S.A.. These machines have the same serial numbers like the U.S. machines, but with a prefix or suffix "F" . The other series was produced in France and has the same serial numbers up to 1952. In April 1952 they started with serial numbers of their own, beginning with 100000. These machines have an "F" prefix or suffix as well.	13
100000-108000	1952			prefix "JF", additional "T" marks the ten key tabulator models	13
109000-126000	1953			prefix "JF", additional "T" marks the ten key tabulator models	13
127000-142000	1954	Aug		prefix "JF", additional "T" marks the ten key tabulator models	13
No. 18					
695617	1966			Prefix SJ	6
712766	1967			Prefix SJ	6
714801	1968			Prefix SJ	6
No. 21 and No. 23					
				Booking machines, based on No. 16	7

121210	1914	12	02	Dec 2, 1914: Last serial number of this scheme. Adopted 2-letter prefix, first letter "M" and second letter the month as follows: Jan=P, Feb=M, Mar=L, Apr=K, May=X, June=S, Jul=V, Aug=E, Sep=D, Oct=C, Nov=Z, Dec=A. Formula for serial number now uses a series of 10,000 numbers, used over and over again as needed during a given year. Serial number range is now given for each year this system is used as follows: Serial number range for 1914 "Code 4": 40,000 to 49,999	18
Code "4"	1914			Serial number range: 40,000 to 49,999	18,16
Code "5"	1915			Serial number range: 50,000 to 59,999	18,16
Code "6"	1916			Serial number range: 60,000 to 69,999	18,16
Code "7"	1917			Serial number range: 70,000 to 79,999	18,16
Code "8"	1918			Serial number range: 80,000 to 89,999	18,16
Code "9"	1919			Serial number range: 90,000 to 99,999	18,16
Code "0"	1920			Serial number range: 00,000 to 09,999	18,16
Code "1"	1921			Monarch #3 discontinued Dec 1921 Smith Premier (new name for Monarch) #30 & #40 begin production in 1921 with Prefix Letter "M". #30 discontinued Oct 1926. Serial number range: 10,000 to 19,999	18,16

Code "2"	1922			Serial number range: 20,000 to 29,999	18,16
Code "3"	1923			Smith Premier #60 begins production in June 1923. Serial number range: 30,000 to 39,999	18,16
Code "4"	1924			Serial number range: 40,000 to 49,999	18,16
Code "5"	1925			Remington name replaces Smith Premier name for domestic use of Remington organization. Remington #50 began production Aug 1925 with Prefix Letter "X". Serial number range: 50,000 to 59,999	18,16
Code "6"	1926			Serial number range: 60,000 to 69,999	18,16
Code "7"	1927			Serial number range: 70,000 to 79,999	18,16
Code "8"	1928			Serial number range: 80,000 to 89,999	18,16
W100000	1928	09	13	Sept 13, 1928: switched serial number consisting of one letter prefix "W" followed by six numerals, first number W100,000. Began "W" prefix.	18

X602348	1942	07	01	Production halted due to WWII 7-1-42: Starting this date, all #10's where original serial number is over X370000 when rebuilt, will carry original serial number followed by suffix J, U, etc. When we rebuild machines where original serial was below X370000, the factory assigned a new number in the "XR" rebuilt series.	18
X	1943	09	01	9-20-43: Again allowed to sell Noiseless on W.P.B. approvals. Had 2974 "frozen" machines plus 5000 authorized to mfr. Had to stop 4-19-44 as all sold and no authority to mfr. more.	18
X602742	1943	12	01	Production Resumed. 12-20-43: Offered field in Sales Letter #106 some Canadian made Noiseless in "A", "C" & "D". They have metal keyrings and serial number prefix "CX". Price same. Were offered to help make shipments as domestic production very slow. (came out of our [Remington Factory] 5,000).	18

Portables				Serial Number Location: On inside of right side frame, toward front.	31
Junior				First letter of serial number indicates Model (Junior = "J") Second letter indicates Month: Jan=P, Feb=M, Mar=L, Apr=K, May=X, June=S, Jul=V, Aug=E, Sep=D, Oct=C, Nov=Z, Dec=A First number in serial indicates year number: JL5 = March, 1915	18
	1914-1918			3 key-rows, almost a Portable, later sold as the "Century" by "A.W.M. Co."	13,18
				3-Bank semi-portable introduced as low-price machine. Manufactured in the Smith Premier factory in Syracuse. Ribbon spools mounted side by side in center rear of machine, as in Smith Premier No. 10. Designed by Arthur W. Smith and John H. Barr, with ideas of Frank Sholes. Production ended in 1918, and most specimens have a Medical keyboard, suggesting heavy marketing to physicians and pharmacists.	16
	1914	05	01	First announced May, 1914. Price: \$50. Machines carry 2-letter prefix serial numbers in effect at the time; ex: JA40123, etc.	18

Portable #1, #2 and #3				Models: #1 - Compact model with short carriage, early versions called Model "A" by collectors. #2 - Compact Model of last issue, called Model "B" by collectors. #3 - Paragraph Key Model. #4 - Tabulator Key Model. #5 - Improved Model #3. #5T - Improved Model #4.	18
Nx0xxxx	1920	10		Oct. 1920, Model #1 released. First letter of serial number indicates Model (Portable = "N") Second letter indicates Month: Jan=P, Feb=M, Mar=L, Apr=K, May=X, June=S, Jul=V, Aug=E, Sep=D, Oct=C, Nov=Z, Dec=A First number in serial indicates year number: NL1 = March, 1921	18
Nx1xxxx	1921			Oct. 1921, Longer carriage, starting at NC10474.	18
Nx2xxxx	1922			March 1922, Shift key on both sides, starting with NL20211.	18
Nx3xxxx	1923				18
Nx4xxxx	1924				18
Nx5xxxx	1925			Feb. 1925, Model #2 Long Carriage (NM50000)	18
Nx6xxxx	1926				18
Nx7xxxx	1927				18
Nx8xxxx	1928				18
V100000	1928	09	01	Sept. 1928, Switched to single letter prefix "V" and dropped Year Code from serial number.	18
V103001	1928	10	01		18
V111001	1928	11	01		18
V120001	1928	12	01	Dec. 1928, first rigid type mach. (V131519 - #3) Note: V150477 is a #2, so #2 and #3 produced concurrently for awhile.	18
V132001	1929	01	01		18
VPPA to VPPDDHH	1929	01	01	Jan 1929, Switched to all-letter serial for part of month.	18
