## TO OUR FRIENDS:

''You just call out my name and you know wherever I am I'll come running to see you again. Winter, spring, summer or fall All you have to do is call And I'll be there

You've got a friend."

Mr. Edmond Roberts

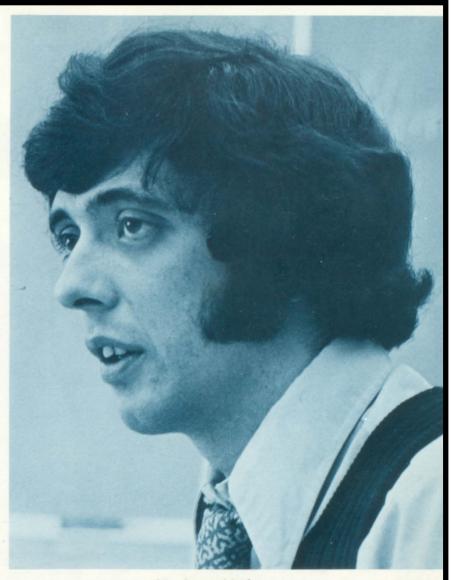

We would like to extend the custom of being informal at this time, in these words. That was always the basis of our relationship and we consider that very special. In the few short years we have experienced here, we somehow found you, admired you, sought your friendship and now we will leave cherishing it. What you have given of yourselves can never be taken from us. Between all of the laughing and arguing we've been growing.

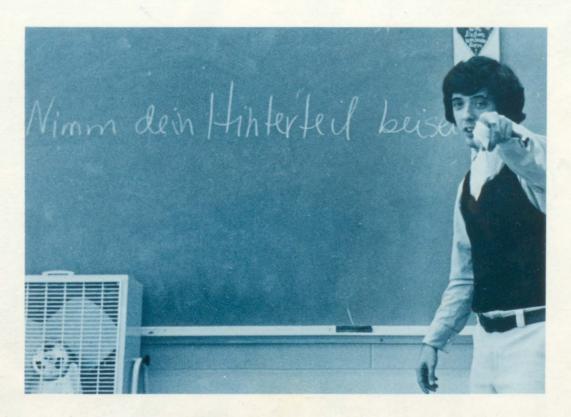

So, we don't leave just saying thank you for your time but rather for your effort, and mostly your respect. We dedicate this book that serves some representation of us to you Mr. Edmond Roberts and to you, Mr. James Marino. Taking in mind all that you mean to us, we find it most appropriate to dedicate it with our respect, gratitude, and affection.

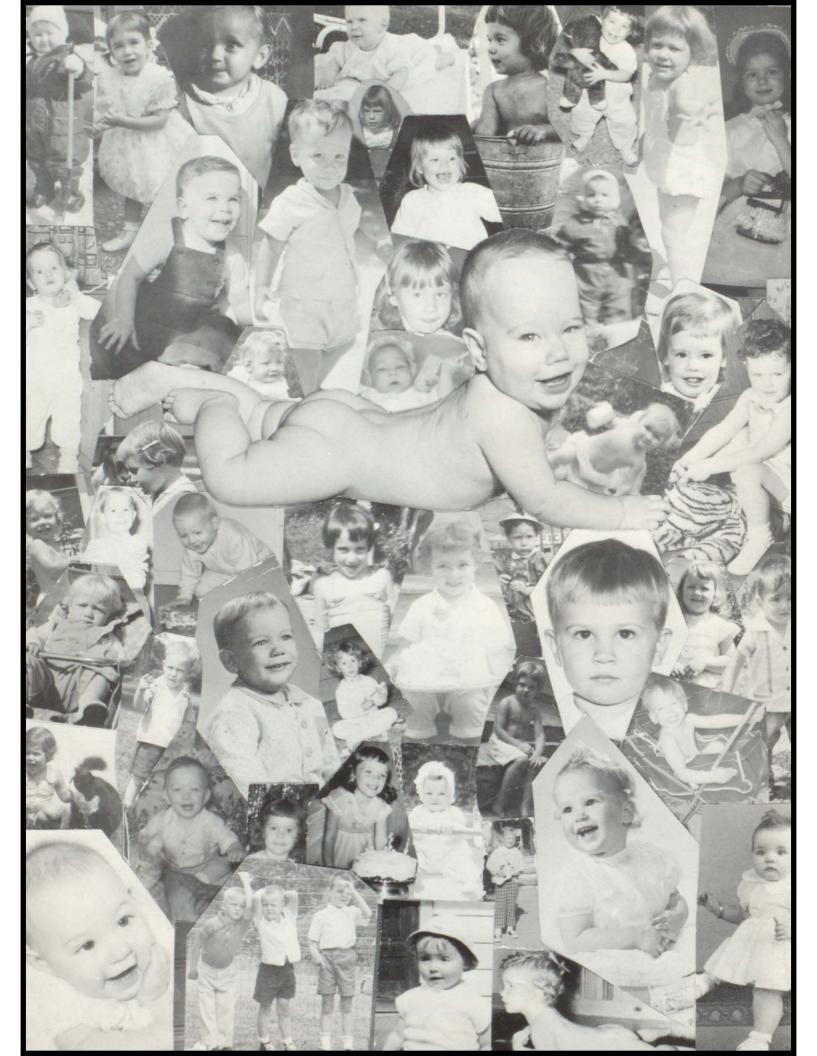

We got by with a little help from our friends.

The Class of 1974

Mr. James Marino

Learning occurs best as a result of internal motivation and need. It occurs in different ways at different times, and at a different pace for each individual. It occurs in school and it occurs outside of school.

Education geared to learning recognizes these realities. It encourages and it knows how to be truly helpful when needed.

These principles are well developed in educational theory and are practiced to varying degrees in our school setting.

We hope that we have helped each and every graduate to acquire the knowledge and skills necessary to survive, let alone live well, in our complex society.

To the Class of 1974 -

It is a pleasure to congratulate you on achieving the status of "Alumni" of Red Hook High School.

You will be encountering many problems and situations in the future which will require you to make decisions and take positive action. One of the objectives of your schooling has been to improve on your ability to do so.

I hope that as you reflect on your three years in high school, each of you can remember mostly good experiences, and that in the years to come you will take advantage of the knowledge and skills acquired while attending school.

The energy and time you have spent over the last three years in high school are appreciated. Please accept my best wishes for a happy and successful future.

Our

BEST EVER!

Bananas, Booze, or Bust!

This year in Red Hook has been fantastic and unforgettable. I have learned much about customs. It has been a very good experience in my life.

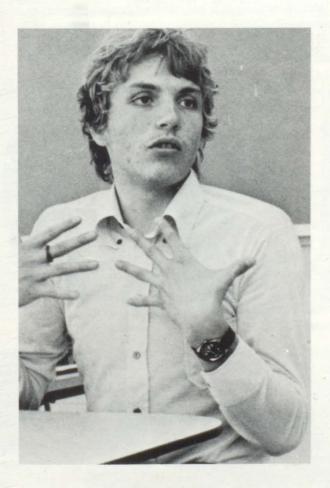

I thank the A.F.S. Chapter for all its help and especially my friends for their friendship which I will never forget.

My year is over and it is time to go, so thanks to everybody and good luck in the future.

Adios,
Your Foreign Exchange
Student from
Costa Rica,

Carlos Quesada

This year here in Red Hook was, for me, a great experience. Living with an American family and going to your High School was interesting and a lot of fun. I will always remember it.

Seeing people and teachers helped me to get used to the new things which occurred in the beginning. I always had a good time with my friends which were times I will never forget.

Also I want to thank all the people who helped to make my year in Red Hook pleasant and successful in every way.

Auf Wiedersehen,
Your Foreign Exchange
Student from
Germany,

Meinrad Milz

SPECIAL THANKS

#### Mrs. Roberts

Mrs. Roberts, we could not let this page pass without making your name a vital part of it. Thank you for all the help you've given us from making the pizzas at the football game to laying out pages with us when we burned the night oil. We hope that along with all you have shared with us, there has been some enjoyment. There has been for us. When you think of this book or our class, we hope you feel as though you are a part of us. Thank you so much for being honest and respectful, for this you will always be included in our memories.

#### "and more thanks"

There is no denying that your association with our class, Mr. Barringer and Mr. Lawson, has been on a different level than that of the others on this page.

For all the guidance and assistance you have given to us we can only say thank you and hope you know by now that we are aware of the errors that lie within our ranks and hope you judge us not according to those errors but observe the good exhibited and trust us to enter the next part of our lives with confidence, good judgment and honesty. We are no longer what we were then, we are The Class of 1974.

We also thank anyone else we might have failed to name who has contributed to any endeavors we have undertaken. The Class of 74

#### Mrs. Bowman

Mrs. Bowman, it is only fitting that we should express our sincerest thanks to you for helping us with this yearbook. All the times we brought our copysheets to your typewriter we were never refused. We'd like for you to know we appreciate your work and hope you will share this book with us since you helped make it.

"more thanks"

Mrs. Libertini, Mr. Fisher, Miss Sargent, and Mrs. Hamiwka

Thank you for all you have done for the class of 1974. We remember all the dances, trips and activities you were a part of. At the time they appear to be such small things but now we find your names come up and are of importance to each of us. Each of you, individually, have your own magic that makes you what you are and that makes us proud to know you.

### **EDITORS AND STAFF**

When one undertakes a project such as trying to create a book that is representative of an entire year of events that have taken place in a particular time, one finds it difficult to put into reality all the ideas that have ever entered into not only one mind, but the minds of an entire staff. We hope you will view this yearbook as a joint effort by a dedicated group of people. We offer no justifications for any shortcomings of this book and are totally responsible for what we have done. Perhaps the most important thing we have gained from an association such as this, is that it is necessary to set aside personal wants and recognize a need for a situation to exist where all possible ideas are exhibited. We would like to think, that from the time we started this up until now, we have grown and learned to respect each other's ideas and to be aware of each other's feelings. If this sounds like advice to those who will undertake making a yearbook in the future, it is perhaps the most vital element in working together. It is not easy, but it is an experience that each of us will look back upon and regard as something in which we had a good time, something where we learned about ourselves and something that we completed.
