# Dedication

Mr. Thomas Florio

"Though we travel the world over to find the beautiful, we must carry it with us or we find it not."

Emerson

We have carried these thoughts with us through you, Mr. Florio. You bestowed upon us insight and knowledge. You lead us with success in all our projects and goals. This dedication is our simple way of expressing our heartfelt thanks to you.

CLASS OF 1971

#### EDITOR'S MESSAGE:

This year we attempted to change the yearbook format from an artistic viewpoint. Perhaps these endeavors are not entirely apparent but please keep in mind that they are ideas, well intended. We hope that some of these changes will leave an effect upon yearbooks in the years to come.

#### District Principal's Message

Change in our society is inevitable. Progressive, orderly change comes about through active, constructive participation in the democratic process.

The lowering of the voting to 18 years will allow you to be an active participant in the process of governmental change in the very near future.

It is of prime importance that you exercise your right to vote and that you become involved in the democratic process. Intelligent evaluation of the issues and critical analysis of all political candidates will make your involvement worthwhile.

We hope that during your years at Red Hook Central School you have been able to acquire the necessary skills and have obtained the depth of understanding to insure intelligent, active participation in the democratic process.

The entire staff and the members of the Board of Education wish you well.

#### High School Principal's Message

As we reach the end of another year; as a new group of young people prepare to participate in a new and different society, each should spend some time reflecting. If our lives are to be meaningful we must analyze ourselves periodically so that we can assess our weaknesses and our strengths. Since change is such a large segment of life, being able to direct the changes in yourself and your life is essential to peace of mind.

While in school you have absorbed a considerable body of knowledge. You have been judged on your success in this area

and found to be properly prepared.

In addition, you have had the opportunity to develop a sense of values which you will use to make choices between the various roads that you may travel. Wise choices will make it possible for you to succeed in your chosen work; wise choices will make it possible for you to make a valuable contribution to the betterment of mankind; wise choices will give you peace of mind, happiness and good friends.

These are the things that I would wish for you. I hope that all your choices be wise ones and that you have a long and healthy

and productive life.

Miss Bennison — Guidance

Junior High School students are facing decisions that will determine the course of their future lives. These decisions relate not only to success in school work but perhaps more important, their ability to deal realistically and sensibly with fellow students, parents, teachers and society in general.

The patterns developed in Junior High School serve as the foundation to future learning and success.

As future leaders of our country it is my hope that our students will take advantage of the opportunities that are available to them.
