My dear Mrs. Losee,

I acknowledge receipt of your most interesting letter of July 19th. in response to my inquiry about Anna Bishop.

I am most sincerely grateful for the research that you have carried out on my behalf and for the excellent material supplied with your letter. Without the generous collaboration of historians, like yourself, such a task as I have undertaken would be virtually impossible.

Anna Bishop's association with your district was obviously a long and close one and I will now be able to do justice to it in her biography.

When the book finally comes out it will give me great pleasure to send your society a copy.

Again my thanks,

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'Richard Davis', with a long horizontal flourish extending to the right.

Richard Davis.
