

*Another Big Reason For
Buying SoapMaster*

*it's the only soap dispenser that can be
installed securely in a matter of seconds.*

ANNOUNCING!

The New V-T SoapMaster Mounting Plates and Stic-Klip (adhesive)

Now it's easy to install V-T SoapMaster Dispensers anywhere because:

1. The new V-T SoapMaster Plastic Mounting Plate can be installed in a matter of seconds on almost any type of wall surface, including tile, marble, glass, plaster, metal, plastic, etc.
2. *No drilling*, no special tools necessary. You simply spread Stic-Klip Adhesive on the Mounting Plate and stick it on the wall. Once Stic-Klip has set up, the installation will withstand shock and pull even better than the conventional mounting with wood screws or toggle bolts. Stic-Klip is one adhesive that *really* sticks.

Voorhis-Tiebout Co., Inc.
Red Hook, New York

Stic-Klip, the amazing new adhesive, is available in convenient 4 oz. cans and is sold exclusively through authorized V-T distributors.
