Because she has worked for and with us, because she has given generously of her time and wisdom, words are a poor medium with which to express our sincere respect and admiration for this woman. She is a member of the English and Language Departments, and has been a class advisor for a number of years.

Everyone respects this teacher and looks to her for advice and help. She is never too busy to stop and talk with a student or to help the school in any way.

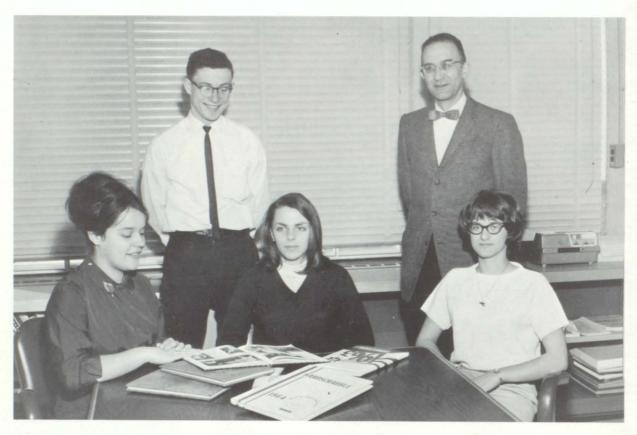

In appreciation for such devoted service, the class proudly dedicates the 1967 HARDSCRABBLE to Mrs. Elizabeth McGurk.

We, the editors of the 1967 HARDSCRABBLE, have spent long hours in the preparation of this book. Much of this time was spent in pondering as to how we might make our yearbook the best. We have taken care to show our appreciation for years spent at Red Hook Central to not only the Administration but the entire staff and most important—our fellow students. Despite the hard work the preparation of HARDSCRABBLE has been fun, but the final pleasure is for you, our readers.

In a short time this HARDSCRABBLE will lose its immediate appeal. In a short time too, it will serve as some adult's key to reminiscences. As remembrance is a yearbook's purpose; HARD-SCRABBLE serves well only if it causes you to remember your high school years at Red Hook Central.

Our class may not have revolutionized the school activities, but we feel that we've created a new standard. Our activities have been successful because of the wholehearted participation of the class. The prom, "An Evening in Paris," the senior play, "You Can't Take it With You," and the Christmas Ball, "Under the Mistletoe" proved the willingness of our class to participate. We hope future classes at Red Hook will keep this enthusiasm.

Bur Koreign Exchange Student

Dear Friends,

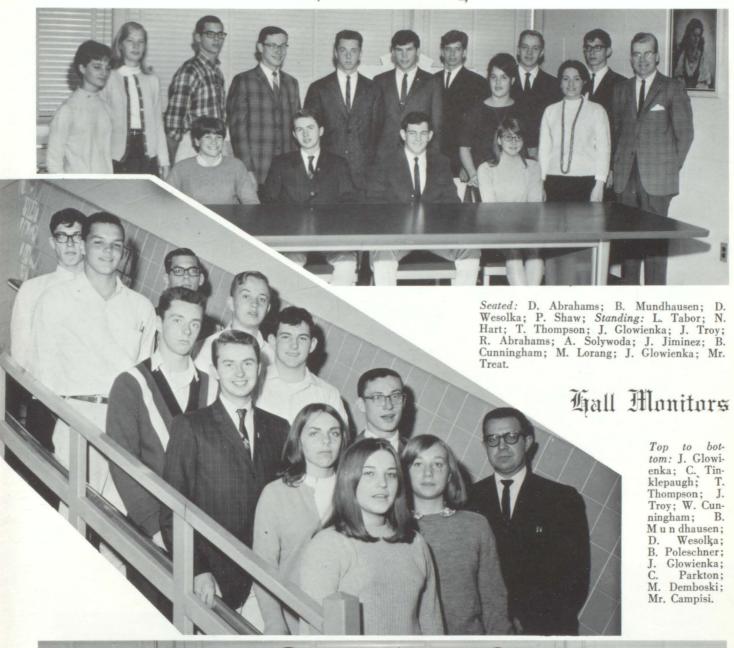

It is very hard for me to tell you how much I enjoyed living with you during this year. I am really very happy to have studied in Red Hook Central School, one of the best as well as the friend-liest school that I could ever attend. You were wonderful friends and teachers and I learned very much from you. My gratitude is also extended to all the teachers, and administrators who were so helpful and understanding.

I am very thankful to A.F.S. for this opportunity to have had such an unforgettable experience, but I am sad at the same time because I have to leave my school, my friends, my family and town. I'll never forget you and I would be the happiest girl in the world if someday I could receive any of you in Brazil.

I don't like sad good-byes and it would be much easier for me to say "so long" since I will be always here and you will be always in my heart.

Your friend, Maria deLourdes Bannwart (Dule)

Juniors

At last we are approaching the goal we have been struggling towards for the past eleven years, becoming seniors. The fitting of our senior rings was one of the events that reminded us of our goal. We are also looking forward, with enthusiasm to the junior prom, which we are currently working on. These events of note for us as juniors, will set the scene for our entrance into our most important year.

Sophomores

Our high school years are half over. We have struggled through science 9, biology, math 10, and world history. The next two years will be devoted to such activities as college boards, fittings for our school rings, the prom, the senior play as well as our academic endeavors. We are going to try our best to make the last years profitable to us and to our school.

Freshmen

This year's Freshman Class of R.H.C.S. began their first real year of high school by taking part in many extra-curricular activities. Many of us belonged to various school clubs, and also participated in school sports.

We have also sponsored two dances, both of which were great successes. We are all looking forward to the day when we will be Red Hook's new sophomore class.

The "Gay Eighth Graders" during the past school year held class meetings, which helped us to understand parliamentary procedure while we planned future activities. Dues were collected which will help to finance these activities. Our big social event of the year was the Eighth Grade Dance. We are looking forward to our future years at R.H.C.S.; which we hope, will be as successful as this year has been, thanks to the able guidance of Miss Strever, our class advisor.

The uppermost goal in every seventh graders mind is to master the work of the seventh grade so that each of us can be eighth graders next year. It is also our goal to become good school citizens. We support the activities of the school and do our best to conduct ourselves at all times so that as representatives of Red Hook High School we will always leave people with a good opinion of us, our parents and our school.

Board of Education

MR. DANIEL P. GRIFFIN; Mr. H. William Kessler, Business Manager and Clerk of the Board of Education; Mr. Herbert L. Petz; Dr. George F. Michael, President; Mr. Francis A. Rabbett, Vice President; Mr. Russell J. Keefe, District Principal; Mr. Lloyd W. Hapeman.

The members of the Board of Education are elected representatives of the voters of the school district. They establish the policies that will enable each student at Red Hook Central School to obtain the best education possible. It is through their concern that we are able to enjoy educational facilities not available to many students today.

Aistrict Principal's Message

Congratulations to the Class of 1967. Your many accomplishments will long be remembered by all. The entire staff wishes you success in all your future endeavors.

We hope that we have been able to help you obtain the background and knowledge so necessary to cope with the many complex problems of our society. We have confidence in each one of you and know that your contributions to the future of our nation will be significant.

The education you received in high school was made possible by your parents and their parents before them. The school systems of our nation have grown and have met the challenge of ever increasing demands. If this is to continue, you must take an active interest in the future of our schools. Wherever you may make your home, we ask that you make sure that your children and all future generations will have the opportunity for the fullest development of their talents.

Active interest and participation in our educational system can easily be your most significant contribution to the future.

Russell J. Keefe
District Principal

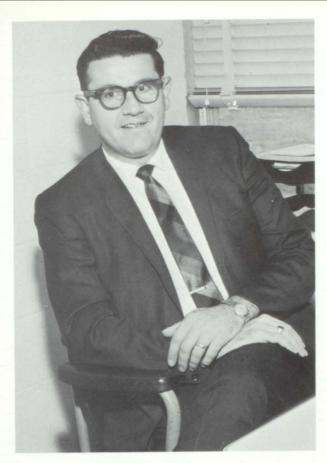

Secondary Principal's Message

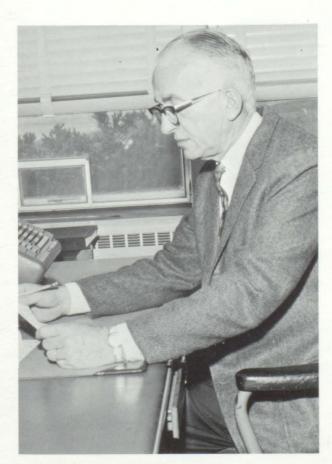

Your journey through elementary and secondary school is over. You are ready for bigger things, the greater challenges of the adult world. For many of you, graduation will mean entrance into college where you will encounter academic and social adjustment problems which you must face alone. For others of you, graduation will mean other types of training or an actual working situation where you will be confronted with a whole new environment, different from any you have ever encountered. In each case, it will be necessary to give of yourselves if these difficulties are to be overcome. Each problem with which you come face to face and which you solve, will teach you something; something you must learn if you are to have a successful future.

In the last thirteen years, you have been sharpening the tools you need to solve your problems. Red Hook Central School has done its best to provide you with the essentials necessary for effective preparation for adult life. Here you have received in direct proportion to the amount of yourself that you gave to the task. We are sure that you are ready "to take on the world." Our best wishes for every success go with you. Red Hook will follow your progress with interest, rejoicing in your accomplishments and offering understanding in your defeats.
