(R. F. D.) RED HOOK, N. Y. *July 25th 1916*

My dear Mr Mead:

Your recd. with apper for the Bore farm. Well the old man would not think of letting it go for that price. he says "I won't sell to any one but them \$17,000." and I guess he will stick to it. Not 16,000. might tempt him a little. I talked the matter over with Mr Teator last night. and we both agree that the Phillips farm near the lake east of here is worth your while to look into I sent you a description of it 155 ac. \$5500. then east of this is a 85 ac farm that I think can be bought for as there are no buildings in it burned up last year. I will get a price for it if you would like to consider it. This would give you a chance to get out 5000. fruit trees. I would like to know you see the Dowsley farm east of Clermont. Just north and adjoining the Bore farm. a man own about 80 acres that I think you could buy for. In regard to the bar land on the Bore farm this was wood land a few years ago and was cleared so is my rich land I learned from a man who worked there at the time. The farm we looked at below the Village here when the same had been burned was sold the other day to the man who sold to Mr Boush. I hear it went for \$8000. I hope before you settle upon any thing you will come over and look at the Lake farm. I might be able to bring Phillips down for \$5000. With kind regards.

about the farm.

Yours truly G. Willard Platt
