

Chicanos

THIS REUNION IS A GATHERING OF
CHICANOS, FAMILY AND FRIENDS

A MEXICAN-AMERICAN STORY

This reunion is a gathering of Chicanos, Family, and Friends.

There are a few club members at this reunion that have not seen each other in a staggering 35 to 40 years! Obviously, this gathering is long overdue. For the past 2 years, we have planned this reunion with the help of old and young Chicano members. Finally, we have the chance to reunite and share our love of camaraderie, culture, music, good food, and great memories of growing up in Lorain.

We would like to welcome everyone in sharing the food, companionship and the forming of new memories.

Acknowledgement goes out to those that came before us, such as the *Mexican Kings*, the *original Chicanos*, and the various small clubs that existed before the Chicanos were started up again. Also, a special acknowledgment to the *Mon-A-Raes*—our sister club.

A special moment to those Chicanos that have passed on, some in the very prime of life; they are still thought of and missed.

We hope we can do a better job of keeping in touch with each other in the future. Perhaps in a couple of years we could plan a cruise together as a group and build even more memories.

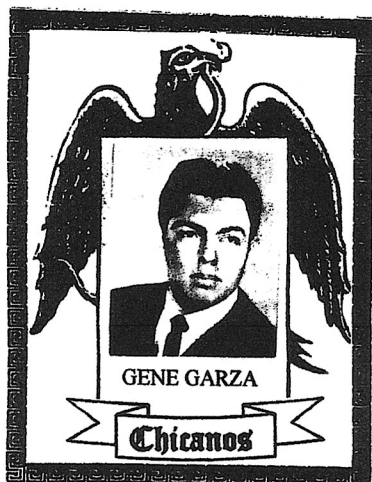

Enjoy life,

LOS CHICANOS

In loving memory we acknowledge the following Chicanos

THE INTERNATIONAL CITY AND HOME OF THE CHICANOS

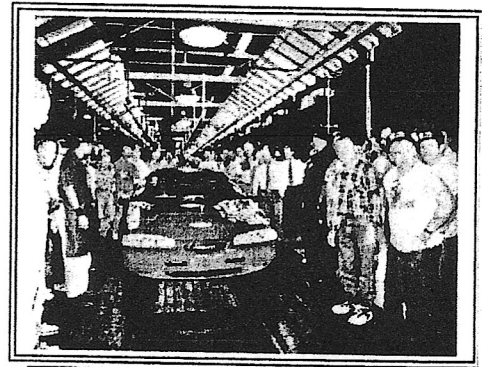

IMAGES OF LORAIN

OUR PAST IN PICTURES

An early picture of Lorain High School. When the school was first built, the older building was located on the right of the picture. They therefore constructed the left side of the building first, and then when that was finished, they moved all the students to the new building, while they tore down the old building that was at the right. Then they continued building the right side of the school. The center of the school contained the cafeteria with the auditorium above it. The stage was used as the gym, at first. Later additions were made to the right side of the building and the school extended from Washington Ave. in front, to Hamilton Ave. in the back to cover almost the entire block.

A new car comes off the assembly line at the Ford plant in Lorain.

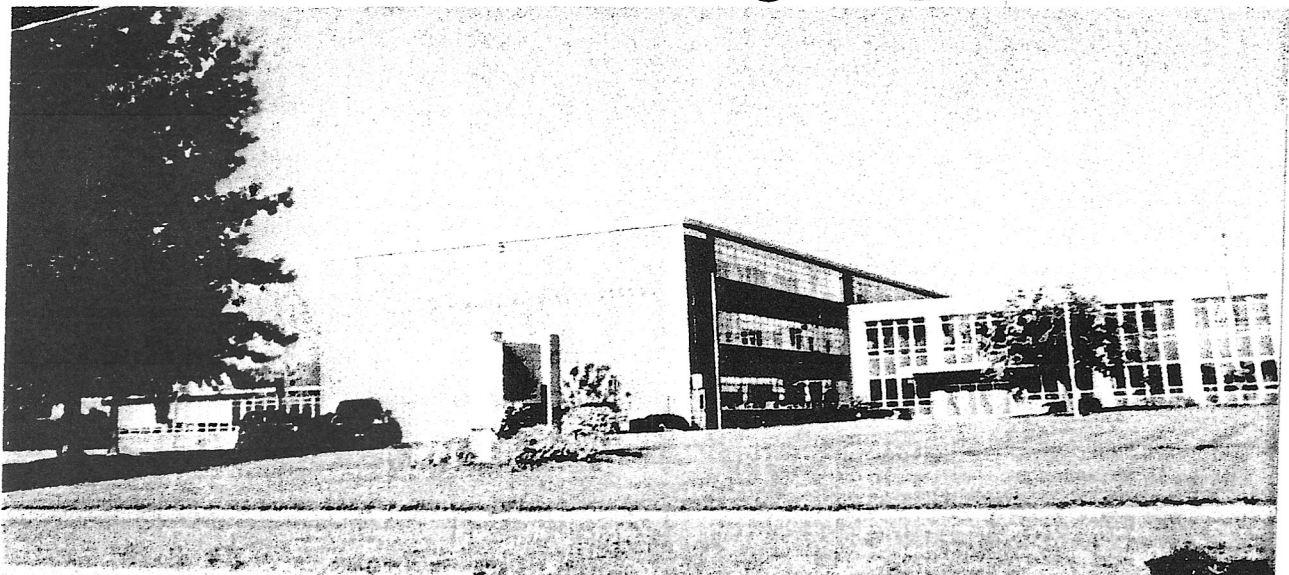

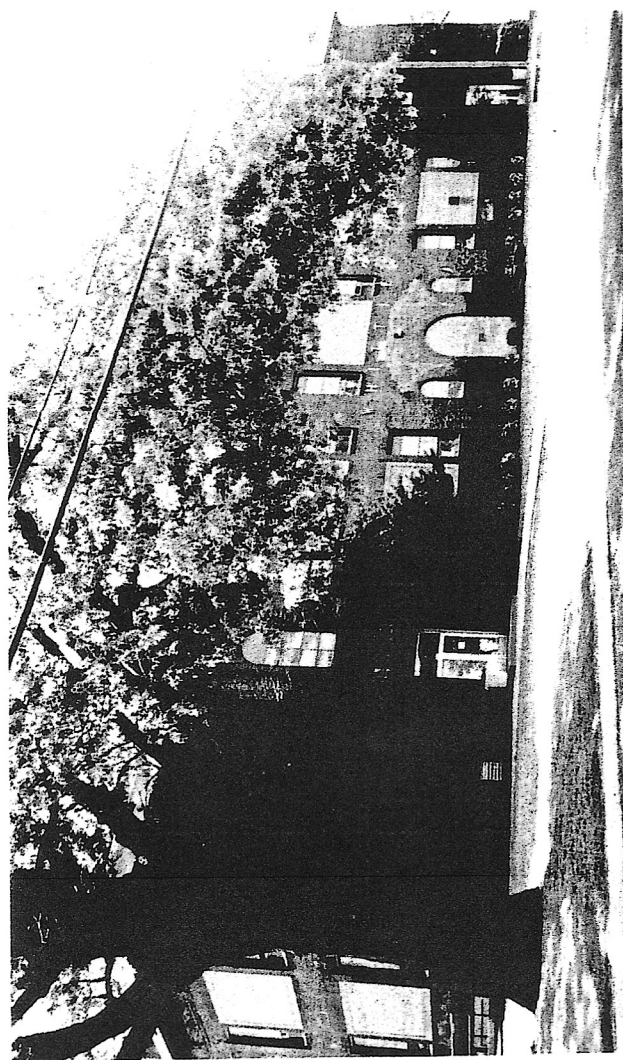

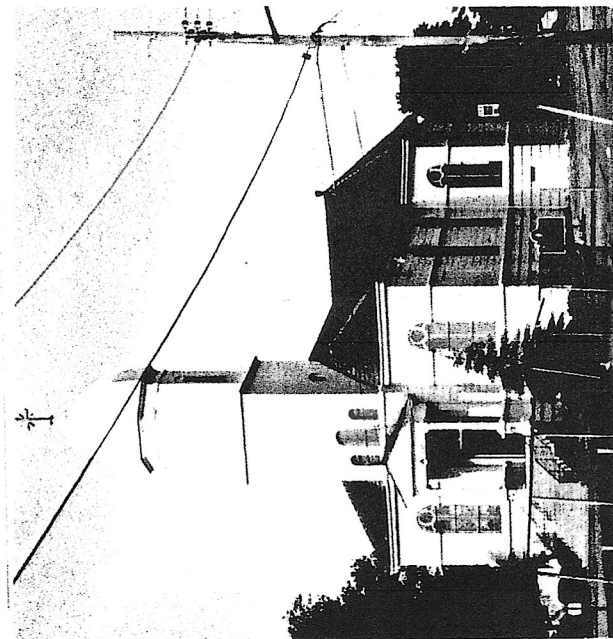

Lincoln School, Elyria, circa 1910. Lincoln was built between the Washington building and elementary school in 1905. *Courtesy of Lorain County Historical Society*

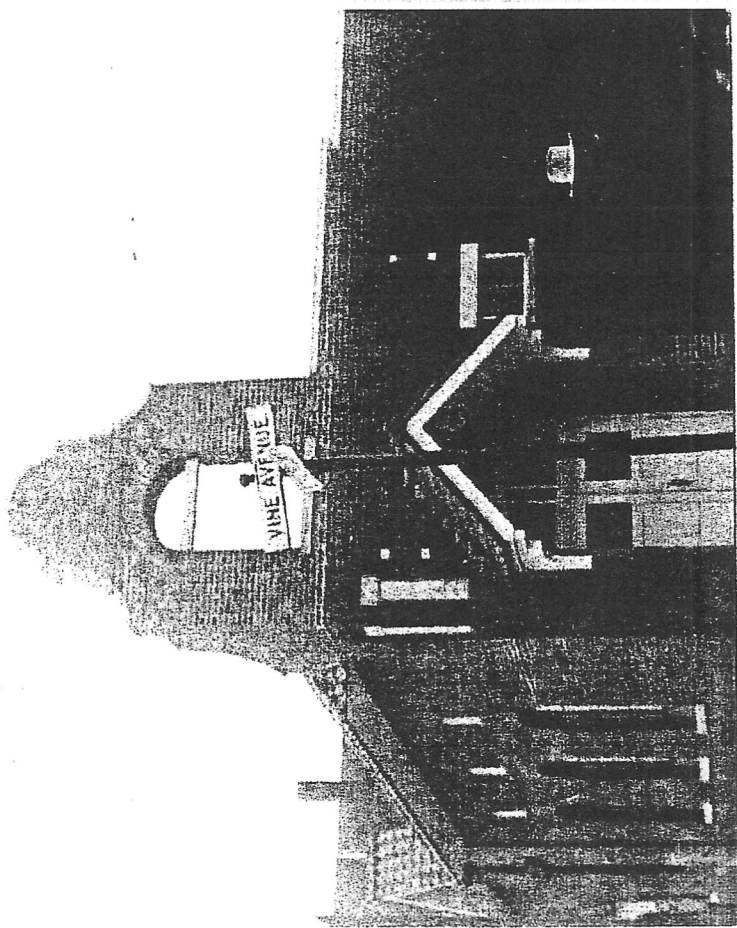

Oakwood School, N.W. East 31st and Grove streets, Lorain, circa 1910. *Courtesy of Lorain County Historical Society*

Admiral King High

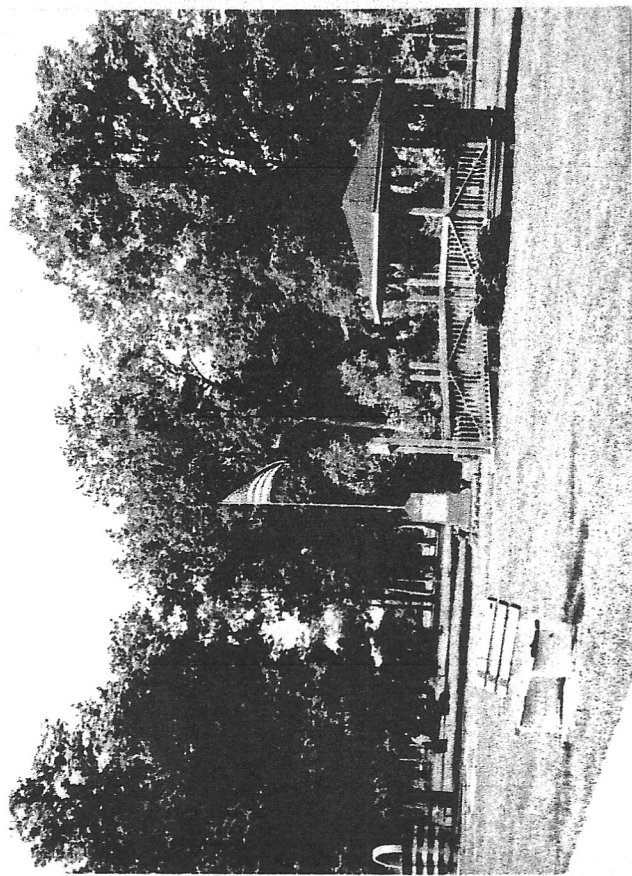

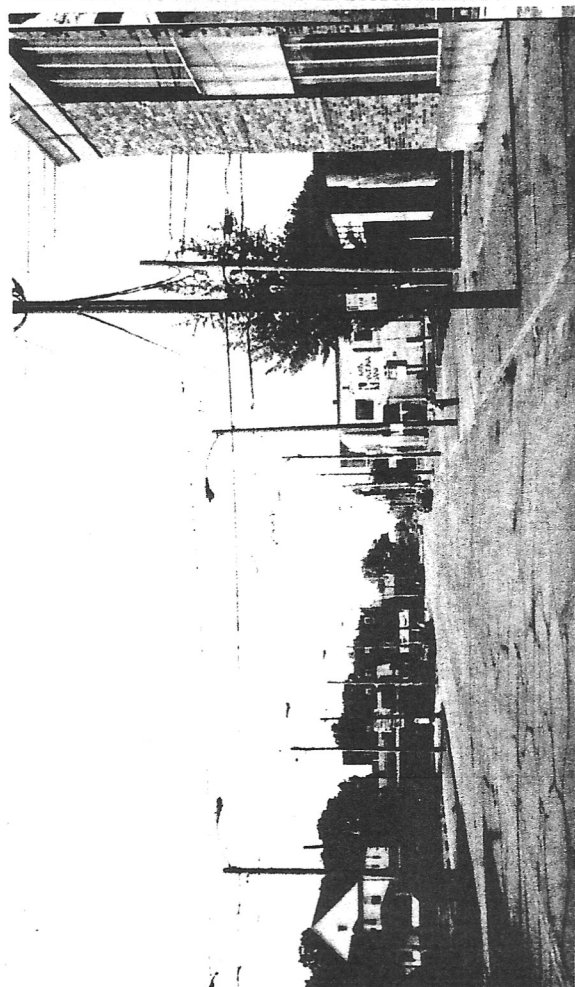

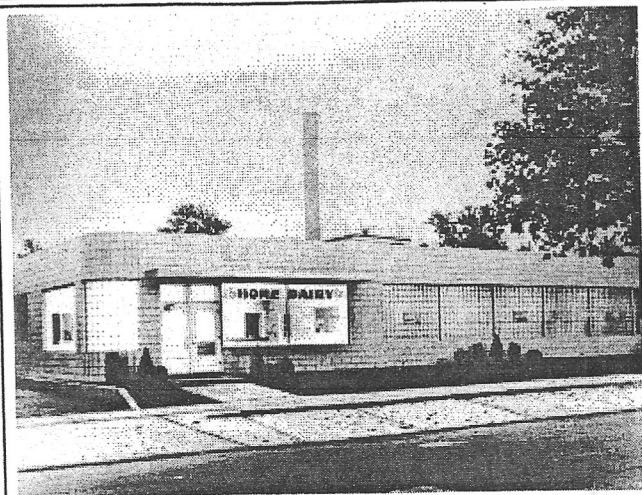

Sacred Heart Chapel

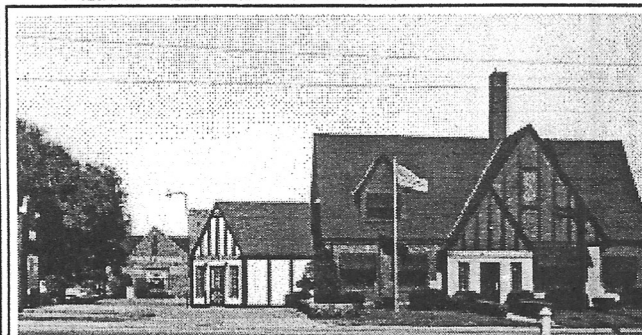

Sacred Heart Chapel.

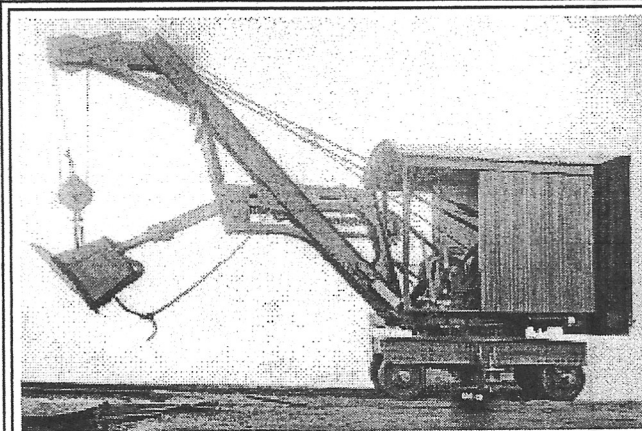

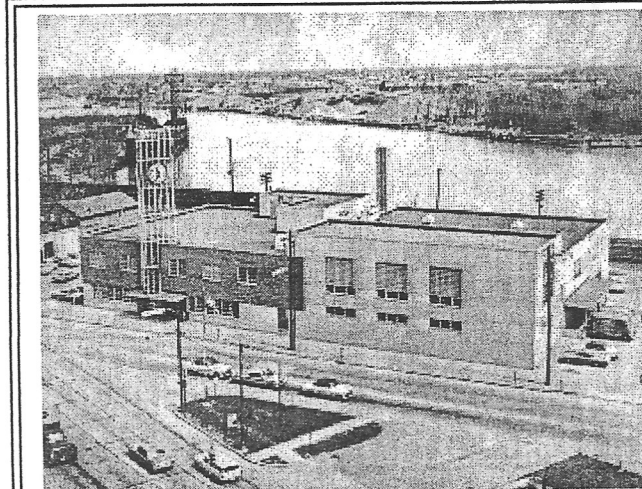

The new modern plant where the Home Dairy Company was located. This building had the latest in milk processing and bottling.

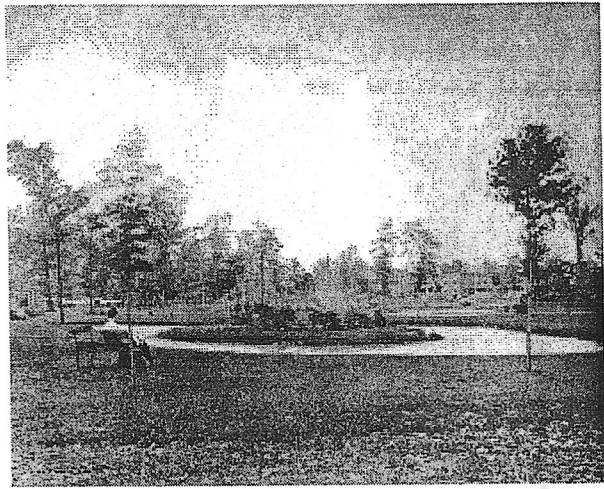

The Lorain Creamery was one of the leading dairies in Lorain. They later added the restaurant at the back. Located at Oberlin Ave. and 14th Street.

Captain Thew tried to develop a faster way to unload his ship on the Lakes. He came up with a gear system that allowed the shovels to rotate around all 360 degrees. The system had never worked before, but he made it work. After retiring from being captain of ships, he and others established the Thew Shovel Company of Lorain. This picture depicts one of the early models that were made in Lorain.

The Lorain Journal built a new building on Broadway and 16th Street. This was a new and modern plant that helped increase circulation of the paper. The picture also overlooks the Black River and the east side of Lorain.

This park in South Lorain provided a relaxing time for many people. The pond, island and fountain helped their enjoyment.

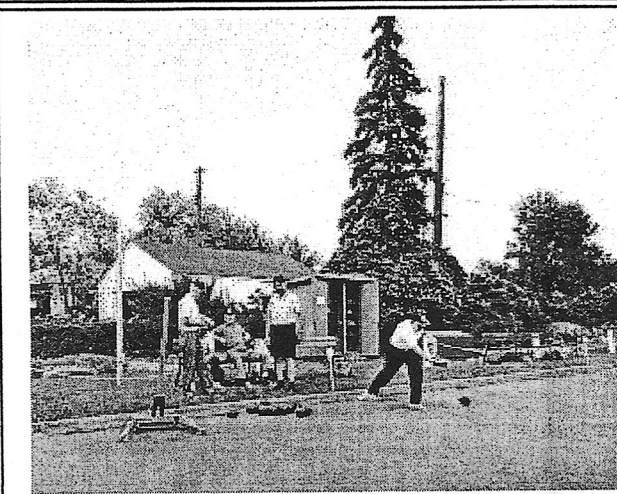

A picture of South Lorain at Pearl Street and 28th Street. The City Bank is located in the building to the right.

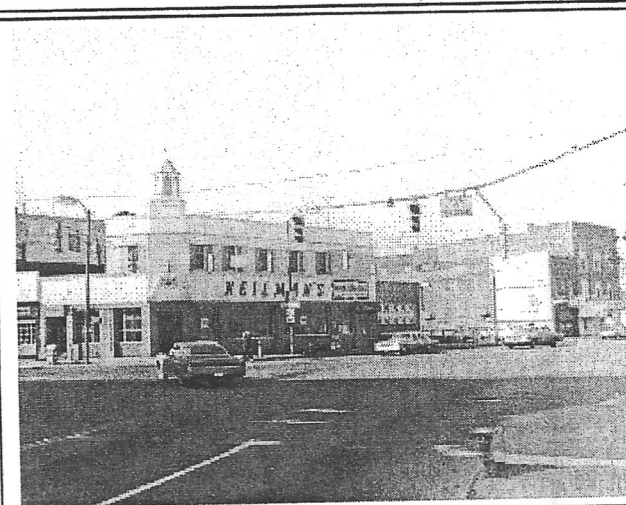

The Lorain Manor Nursing Home on the southwest corner of East 32nd and Seneca streets, Lorain, circa 1910. *Courtesy of Lorain County Historical Society*

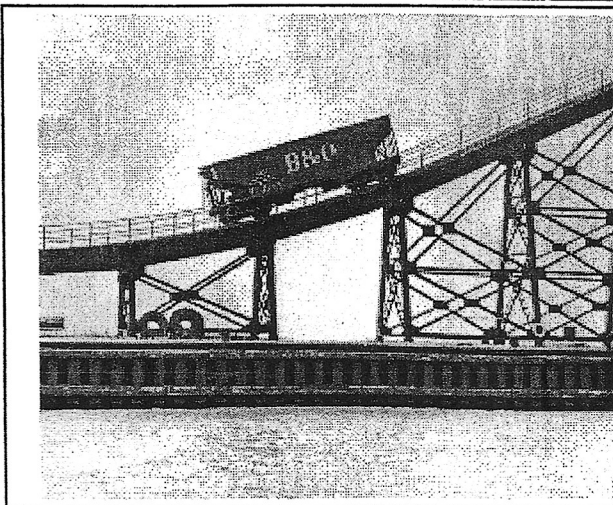

Before airconditioning, bathing at the beach was the only way to keep cool in the summer heat. The Bath House on the hill provided showers, changing facilities and a restaurant. This Bath House was destroyed in the 1924 Tornado.

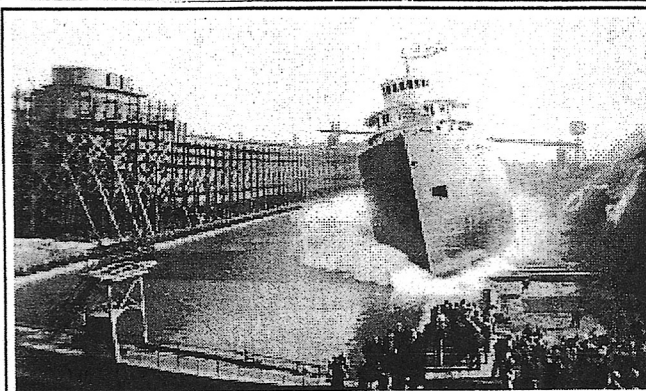

These men are enjoying a game of "Bowling on the Green" at Lakeview Park. The field was at the east end of the park north of Erie Ave.

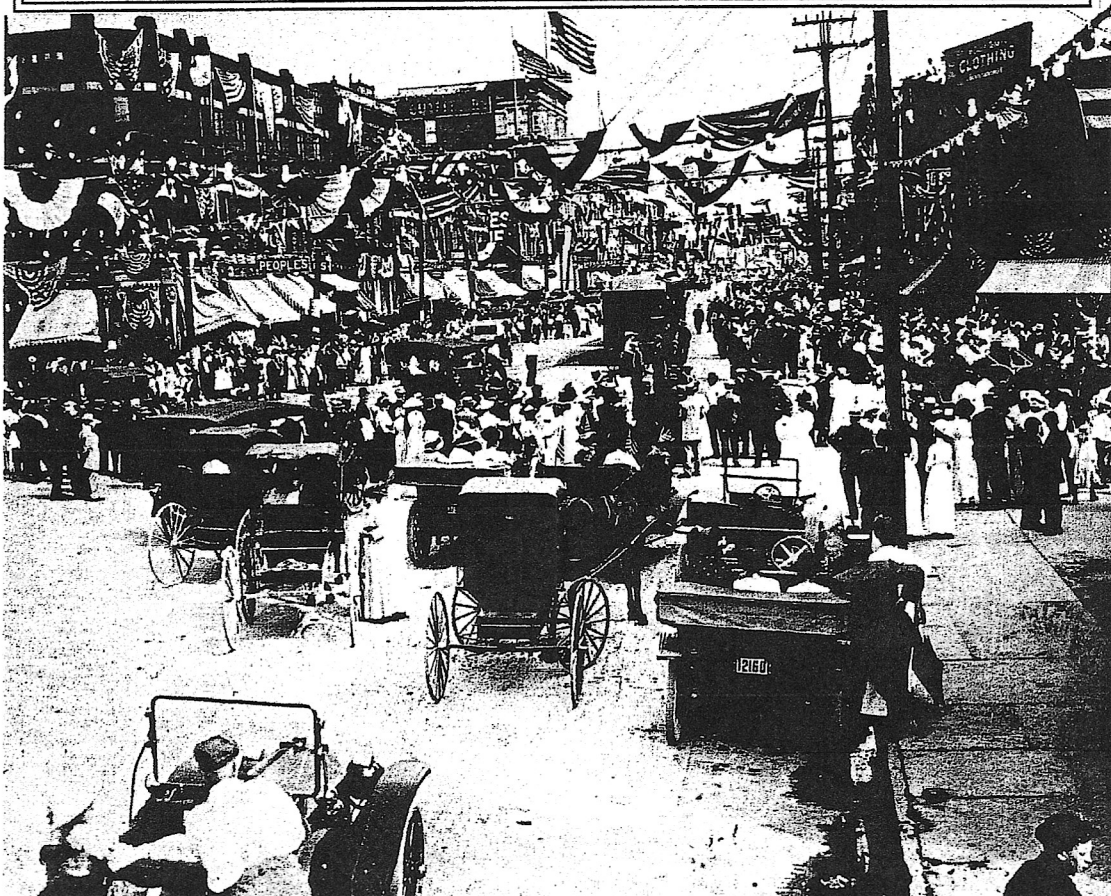

One of the long-established restaurants in Lorain was Heilman's at the southwest corner of West Erie and Broadway. Mr. Heilman also started a restaurant in St. Petersburg, Florida, and ran both of them for many years.

An empty coal car has just dumped its cargo into a hopper, and is ready to be switched to go to the left and join a train of empty cars to return to the coal fields of southern Ohio.

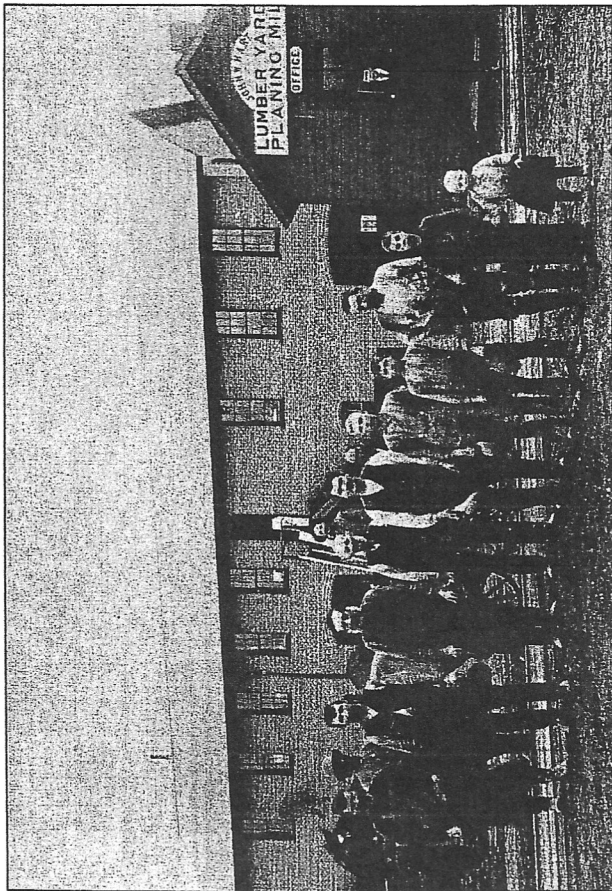

A new ship is launched at the American Shipbuilding Co. in Lorain. Notice the hull slipped sidewise into the water, which was the usual way to launch ships in Lorain. Another freighter is still under construction on the left.

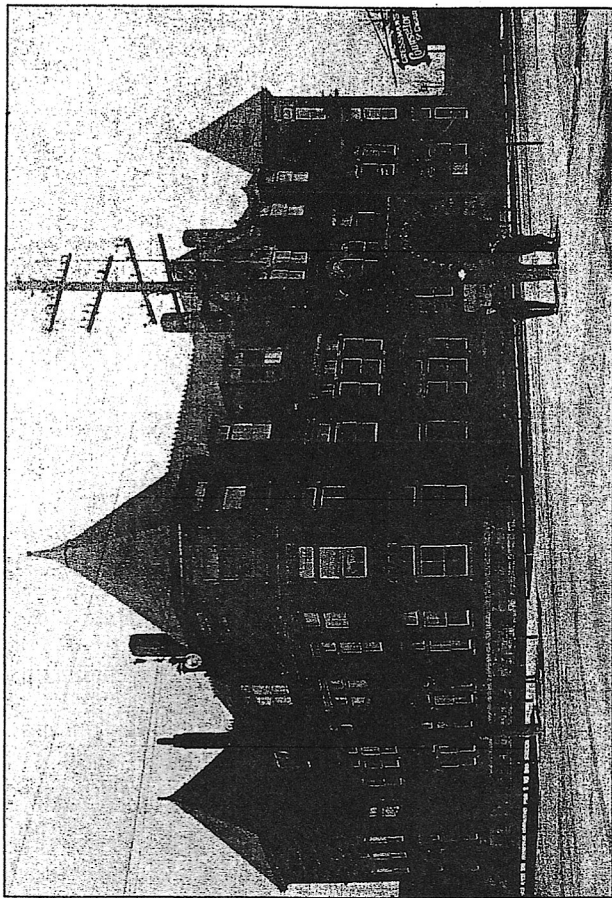

Looking south on Broadway during the Lorain Centennial celebration, 1913. *Courtesy of Albert Doane*
