"HAND DANCE"

OLD SCHOOL DEFINITION & PURPOSE

Webster's New World dictionary describes old school as a group of people who cling to traditional or conservative ideas, methods, etc..

The definition for groove is an exciting or stimulating person, place or experience. Old School Lorain Groove is a mature group of exciting, stimulating people from Lorain County who enjoy and appreciate a more traditional way of life. We value the things our parents taught us. We value old recipes, home remedies and common sense, things that were not taught in school.

We hope to pass the importance of God, Family and Community to our children and grandchildren so that they in turn can continue our mission.

OSLG MEMBERS - 2007
