

April 7-1965

Dear Dorothy-

Nothing new since I wrote on the 31st trying to rain, but so far the past few days only light showers.

Enclosed is a dollar bill for my membership. I think it is still a "duck"! The Saline Valley Trip sounds like a good time was had by all - I couldn't be there in person but enjoyed it mentally! Of course we have ten days to go - from the prospect we are in for the usual Easter weather cold & disagreeable, no matter what time of year it comes - generally snowed in Darwin! And the school kids are ganging up all over the country for their week of raising hell - so much for education - too bad these kids can't go back 50 yrs. when we behaved ourselves or else and appreciated the opportunity to learn. You take care of yourself - and above all be good!

One from Elizabeth.
