Dear Mrs. Mecham:

I received your letter dated April 10. I have a feeling you did not see the cover letter I sent with the maps; perhaps it was lost in the mail. Therefore I am enclosing a copy of my previous letter concerning basketmakers and place names, including names of springs.

I was hoping you would write names of places on the maps and return them. I will send you another set which you may keep.

Sarah Hunter, the name of another basketmaker turned up. Perhaps you remember her and could share some information on her. It is my objective to acquire photographs of as many Shoshone basketmakers as possible. You have already generously shared a print of Isabel Hansen with us.

Thank you for your continued assistance. I trust you are having a delightful Spring.

Sincerely,

Charles N. Irwin, Director
