

La Vina Calif.
Dec 14-1917.

Dear Mr. Clyde,

I just came
from Mrs. Clyde's room and
she is quite ill and asks
me to write you about it
for she knew you would
worry if you did not hear
from her.

The Dr's don't know
just what is causing the

high temperature (104) and
chills as the lungs seem rather
clear, but will know more about
it in a day or two.

Unless she improves soon
will send for her mother and she
no doubt will keep you posted
as to her condition.

Hoping you will not worry
too much, for she is a brave girl
and knows how to fight - I am

Very Sincerely Yours

Verda Elliott Rhyer

P.S. Mrs Clyde has been unusually
well lately.
