Dec 6" 1977.

Dear Mr Irwin.

On Oct 19" '77 I sent you some pictures for the Museum of Darwin before our 2 dikastrous fires 1917-1918 and I hope you received them. I wrote ? the Junction for Mr Dawson - The Saga of Inys is delightful - I'm disappointed tho - that no one wrote of Mamie Reynolds beloved by all who knew her - the miners and prospectors she always helped during her long years in Darwin and later in the Court House as Recorder. To us she was perfect... Our Museum is growing - and I laugh at you fellows moving the tonee - why built at Fort Independence instead of on the Museum grounds! Our Panamint and Coso Indians built a different kind of wickie-up. You boys went at it all wrong!! I have a large picture of a tonee - Bishop way - sent me several years ago by Russ & Ann Johnson - a work of art! - Have a happy holiday season and a good 1978. Sincerely Elizabeth L. Mecham
