Dear B Aug 1923
Julia's note on Sunday
that she had not had any more
fever but was still very shaky, so
come to Genne on Sat, got a call
from M yesterday said E looked
so well, Mary unable to ask Genne
if it would be to have her, and
then Julia + herself could make
their arrangements about when
when they would go off, she has
not had time to hear, but don't
suppose she would go until next
week. Got a letter from Genne y
terday, says E is going to stay up
there the month of August, she do
not think the prospect of the
Gouge's Island more could have
been suggested to him, he had never
said anything about it, said Eduard
was answering E's letter on Mond

Gabriel is going to let me have one
of his guns for Aug & Sept, to start
on Monday. After you left Sunday
afternoon, we all went to Eutawville,
meaning to pray a visit at Walter's,
but met them going out, so we went
to Louie's, then went to H but they
had not returned, so we went to
Annie's. I think E & I + she will be
very sorry when Patsie is no longer
needed. I put up 8 qts of tomatoes
on Monday, but don't think I will
have many more to put up.
Ever your loving Mother.
