Dear Alle:

Thanks for greetings and good wishes. Yes, Alle I have now past the 80-ties and truthfully, feel just as young. Could I aim at kidding a little and say that your drowsiness, if such, is just a cause of not having enough to bother you. Whatever the cause that wear us, every body, seeming so differently affected, do I believe in aim of general interest as having great bearing in the body upkeep. Am noticing when my dear spouse stays on her high horses a ^{few} ~~few~~ days my nerves get terribly affected and there-with feel a degeneration of my whole being. That is the time when my mind travels back to you, Marthe and Chicago.

Reading about swedish fishing, in Emån, wherever that is, Laxen beker

and they pull big ones up to $7\frac{1}{2}$ - $7\frac{1}{2}$ - 8 blg.
 For my own part I would prefer Lansing
 Michigan bluegill about 9 inches long.
 Well as the 3rd July comes, much luck
 to you and Clarence.

I was awaked on my birthday by
 my 3 children, and what many of their
 families within reach, paying homage
 with music and song. Even playing the
 violon and the others, a roomful, sing-
 ing a song of love and appreciation that
 was special composed for the occasion.
 Mamma treated coffee on the bed for
 me with the table set in the parlour
 for the others, while I kept busy unrap-
 ping presents. Besides the many flowers
 was different presents and particular-
 ly an aquarelle painting, depicting some
 (gamla lerbukkar med värtor). It is now
 hung over my bed and color blending

is it greatly enhancing my room. Also got a beautiful flower vase (Arrefors design) and other things. In afternoon and evening close relatives were paying their respects and received coffee and "tårter" It was an in all agreeable day.

Shall try that my mind will not be too much taken up så I can send you some sorts of greeting. You see, your birthday is on same date with my sons who I believe will then become 53.

Read in the paper today of the terrific tornado craving 200 dead. An all in all awful year in America. The negroes seem to gain and get their first part solved. Viet Nam appear to get worse.

Vill quit so I can send this letter today, wishing you all En Glad Påsk.

All future happiness to Diane
