ALTHOUGH our Good Templar Organization is primarily for spreading temperance, we endeavor to make our social field as interesting and pleasant as possible for our members and their friends, through our programs and entertainments.

It is for that reason that we can find sub-organizations within our order, such as our Amateur Theatrical groups, Athletic Club, Astronomical Society, Choruses, etc.

Of these sub-groups, the I. O. G. T. Ladies' Chorus, under the able direction of Alice Johanson, is perhaps the best known at the present time.

Our chorus is composed of a group of women who find expression of their love of music through the medium of their voices. For eight years the Ladies' Chorus has worked diligently and loyally with the primary purpose in mind to furnish our friends with the joy and pleasure derived from music.

At our annual concerts we strive to furnish the kind of entertainment that will impress you as time and money well spent, and we are grateful for your patronage, which enables us to continue with our work.

You'll find our food line most complete.
That makes your Smörgåsbord a treat.
