

November 7, 1962

Dear Daddy,

You already know I'm sure how proud I have always been of you. You chose a difficult career and have been a dedicated public servant. It was wonderful that you had eight years as President to carry out such a marvelous program that will continue to benefit and help people.

There is always disappointment in losing and I know you campaigned to win. You had a

Terrific number of votes so this disappointment is shared by hundreds of thousands of people.

Personally, the heartache now will replace instead four years of headaches and terrific pressures you would have had.

I hope that you will spend these four years as commissioner furthering the Republican cause - as you have always done - and being also a thorn in the side of the Democrats.

We are so proud of all you have done, Daddy! Much love - Marc
