PART II.—EDUCATIONAL SYSTEM AND FACILITIES FOR INSTRUCTION.

19. Education of students now in training: Show number of students having previous education as shown below; i. e., mark in proper column number who had one year in college, or two years, etc.

High school.				College.				Normal school.				Other professional training.*				Years school below high school.
1 year.	2 years.	3 years.	4 years.	1 year.	2 years.	3 years.	4 years.	1 year.	2 years.	3 years.	4 years.	1 year.	2 years.	3 years.	4 years.	

* Such as librarian, kindergarten, secretarial, stenographic, and physical education.

20. Instructors: Number 1 Subjects taught by each instructor _____

Lectures: Number 1 Subjects taught by lecturers 1

Number of hours classroom teaching each instructor gives weekly

Other duties of instructors: none

21. Teaching equipment: (a) Number classrooms for practical nursing

Number beds in each classroom 2 Additional notes about equipment of these rooms _____

Number students accommodated _____

(b) Other classrooms: Number Number students accommodated in each

2. Hospital income and expenditures (year ending May or June 1938) - \$248,960

(c) Laboratories (for use of pupil nurses): How many 1 What kind general

How many students does each laboratory accommodate at a time _____

22. Library facilities for pupil nurses: Has the students' library a librarian Who has charge of the library Instructress

Are books easily accessible to students yes

How many volumes, professional, medical, and technical, in students' library 154 Have students access to any other medical or technical library in the hospital yes Are there restrictions to the use of this library no

library in the hospital **yes** Are there restrictions to the use of this library **no**
How many professional journals come to nurses' library **4** Is any reading in these journals required of student nurses **yes**

How many professional journals come to nurses' library 4..... Is any reading in these journals required of student nurses yes.....
Do they report upon their reading, or is such reading left entirely to the pupil's inclination—in other words, does the superintendent of nurses
other member of the staff make any special effort to acquaint student nurses with the professional journals and their use to them yes.....

Do they report upon their reading, or is such reading left entirely to the pupil's inclination—in other words, does the superintendent of nurses or other member of the staff make any special effort to acquaint student nurses with the professional journals and their use to them **yes**.....

other member of the staff make any special effort to acquaint student nurses with the professional journals and their use to them **yes**.....

Volumes general literature in nurses' library **169** Current magazines **9**

Volumes general literature in nurses' library 169 Current magazines 9

Volumes general literature in nurses' library 169 Current magazines 9

23. Ages of students now in training. (Report number students of each age.)

	YEARS OF AGE.																	
	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34
Number of students			21	37	10	7	6	1	2	3	1	4	2	1	1		1	

24. Do you admit colored students no How many _____
25. Number of students admitted from June, 1921, to June, 1922. 53 How many from September, 1921, to June, 1922. _____
- How many of this number remained at the close of this period 49 Give usual per cent of students dropping out during first year of their training 3%
- What are the main causes for this no special reason
26. Illness of students: Number of days' illness for all students during year ending May or June, 1922. 351 Average number days' illness for each student per year 4
27. Hours of duty for nurses:
Day duty.—Number of hours of actual duty on wards or in other hospital departments (classes and lectures excepted): Per day _____ Per night _____
Special duty.—Number hours actual duty: Day 9 Night 9
28. At what month of her training does a nurse's first night duty begin 6th month
Is the period of night duty one, two, or three months long 1 month
Total number months night duty required in training 5 to 6 months
29. Have number and quality (preparation, etc.) of candidates improved during the past five years no If so, to what causes do you attribute it _____
- 29a. Do you give a preliminary course yes Number of months 3 Number of class hours weekly _____
Number of hours of ward work weekly _____
30. If you offer postgraduate courses, in what subjects _____
Does specially arranged systematic, theoretical instruction accompany the practical work for postgraduates _____
What are their hours of duty _____
31. Please supply the information indicated by the following table:
(a) Theory—Lecture, Class, and Laboratory: COURSE OF INSTRUCTION.

Subjects.	Does it come in 1st, 2d, or 3d year?	Full number of hours in course.	Number hours laboratory course.	Day or evening class.
Anatomy	1st			
Physiology	1st	36	none	day
Bacteriology	1st	12		evening
Chemistry	Preliminary	12	3	"
Hygiene	"	14	none	day
Pathology <u>Gastroenterology</u>	3rd	6	"	evening
Psychology	3rd	6	"	day
Dietetics	1st	25		"
Cookery	1st	25		"
Materia medica <u>Preliminary</u>	Preliminary	14		"
~~Home economy~~ <u>Materia Medica, Advanced</u>	2nd	30		evening
Nursing methods	1st & 2nd	70-25		day
