T

Dearest Grace -

I am still waiting for advice as to what time and which day you will land in Chicago. Today is Wednesday and if you're coming tomorrow or Friday you'd better send a post message so I can scrape enough money together for a feed. You're not giving up the idea of coming home, are you? you know I want you more than all else, don't you?

I was to Institute last night and joined the classes in

"social service" and "recreations." The instructors are all very fine and the subjects helpfull and interesting.

Nobody I know" was in that "L" wreck last Saturday. I'll surely wouldn't be near there when she takes the Train. Yours truly arrived on the scene too late to be a participant and I'm not sorry for that. Every thing was hushed up right away, so it seems surprizing that a Cleveland paper would have any thing about it at all.

I'm still at work every day and have plenty to do. At present the only excitement down there in the betting on the worlds series and city championship of Chicago.

I haven't been up to see your folks at all since you left. And even at that I haven't had a night to my self. This week there is a meeting every night as you know it begins the three week series.

Supper is ready and I'm
hungry, so hurry & let me know
when to meet you, so I can
kiss you before any one else.
That's my right any way so
why not make the most of it.

Take good care of yourself
and love your lonely husband
who is so eagerly awaiting your
arrival.

Lots of love for you Sweetheart
Always your Subby
Joe.
